Mail Address: R. 9, Wichita, Kans.

TERMS OF SALE

Terms are cash with order, prices are net, no discount.

Catalogue prices includes Packing charges and all mail or express charges necessary to Deliver Prepaid where order amounts to \$1. and safe delivery is guaranteed—This is a big saving to you—

We guarantee stock to be true to name and in good condition when it leaves our grounds.

While we exercise the greatest care to have every tree, shrub or plant true to name, and are ready, on proper proofs, to replace anything sent out by us that may prove untrue to label, free of charge or refund the money paid for it, it is understood and agreed, between purchaser and ourselves, that we are not to be held liable for any greater sum than that paid us for said trees, shrubs or plants, that prove untrue.

All orders are accepted on condition that they shall be void should injury befall the stock from frost, hail, fire, or other causes over which we have no control.

This catalogue cancels all sales conditions and prices quoted in previous catalogues.

Certificate of inspection with each shipment.

Total amount of order must aggregate \$1. or more for us to deliver all charges prepaid We do not sell less of any article than the amounts offered in this catalogue except that 6 plants are sold at dozen rate, 25 at hundred rate. Quantity prices does not apply where selection includes only one or two plants of several different kinds, in such instance Each price should be remitted.

BULBS AND TUBERS

FOR SPRING PLANTING

The remarkable advance in the development of this class of flowers has no doubt increased their popularity and the range of color and forms obtainable seems unlimited. Our offering of Cannas, Gladioli, Dahlias and other Summer-flowering bulbs include only those sorts which we have determined to have real merit. We supply the highest quality stock obtainable, sound and healthy, and sure to bloom if properly handled. They require taking up in fall and storing over winter. But are easy to grow, blooming readily and abundantly for everyone.

Caladium Esculentum. Elephants Ears. Immense heart-shaped leaves, sometimes 3ft. long by 2 ft. wide, producing tropical effect. Extra large size bulbs. Each 35c; 3\$1.

Freesias Purity. Clusters of pure white flowers of enormous size, save for one tiny-yellow spot in the throat. Beautiful shaped petals, large, well rounded and opened. Very fragrant. Handle bulbs same as Gladioli.

-Large size bulbs. 3-15c; 6-25c; 100\$3.50.

-Selected largest size. 3-20c; 10-50c; 100-\$4.

Galtonia. Giant Flowering Summer Hyacinths see Hardy Perennials.

Lilies, hardy varieties see Hardy Perennials.

Maderia Bulbs see Vines, Annual.

Tuberoses. Mexican Everblooming. No flower is more delightfully fragrant than the Tuberose. They are indispensable for wreaths, sprays, and bouquets. The waxy white sweet-scented flowers are produced in abundance on tall spikes from July till frosts. They are of very easy culture and require no more care than cannas. Plant the bulbs in a sunny place, after ground has become warm. Grows 24-30ins. tall.

-Extra large blooming size bulbs Each 10c; 3-25c; 12\$1; 100\$6.

-Large blooming size bulbs. 2-15c; 4-25c; 20\$1; 100\$4.

CANNAS

LARGE FLOWERING NAMED VARIETIES

Unsurpassed for gorgeous tropical effect. Greatest ornamental and bedding plants of all. Blooms continuously from June till frost.

Our collection comprises the best obtainable leading new Cannas of real merit.

CANNA BEDS

Planting Suggestions. Cannas should be planted any time after the ground has become warm (which ordinarily is about time it is safe to set out Tomato plants.) covering bulbs around 3ins. deep.

Before laying out a Canna bed, spade the ground 2ft deep, (mixing thoroughly into the soil, if available, enough well rotted stable manure to fill in 4-6ins. in depth of the whole bed). Start with 7 bulbs of tall growing habit for center and first row. Draw a circle 18ins. from center, (by placing stake in center of bed to which is tied a string measuring 18ins. long with marker stick tied to end). This circle, first row, will require 6 bulbs. Then draw another circle 18ins. from the first circle, or 36ins. from the center and use a still dwarfier variety for this second row, which will require 12 bulbs, plant each succeeding circle in the same manner. Each succeeding circle will require 6 more bulbs set 18ins. apart, which is the proper distance, than the previous circle. Thus, 1 bulb for the center, 6 bulbs for the first circle, 12 bulbs for the second circle, 18 bulbs for the third circle and so on. A bed 4ft. in diameter will require 7 bulbs; 7ft. bed, 19 bulbs; 10ft. bed, 37 bulbs; 13ft. bed 61 bulbs.

SPECIAL CANNA BED COLLECTIONS

- ☐ 50c Canna Bed No. 1A. (4ft.across.7 bulbs). 1 scarlet for center, 6 yellows for circle, or 7 all one color.
- ☐ 50c Canna Bed No. 1B. (4ft.across.7 bulbs). 1 yellow for center, 6 red for circle, or all one color.
- ☐ \$1. Canna Bed No.2A. (7ft.across.19 bulbs). 1 orange for center, 6 red for first row, 12 yellow for second row, or all 19 one color except orange.
- ☐ \$1. Canna Bed No. 2B. (7ft.across.19 bulbs). 1 orange for center, 6 yellow for first row, 12 red for second row, or all 19 one color except orange.
- ☐ \$2. Canna Bed No.3A. 10ft.across.37 bulbs). 1 orange for center, 6 red for first row, 12 scarlet for second row, 18 yellow for third row, or all 37 one color except orange.
- ☐ \$2.Canna Bed No.3B. (10ft.across.37 bulbs). 1 orange for center, 6 scarlet for first row, 12 yellow for second row, 18 red for third row, or all 37 one color except orange.
- ☐ \$3.Canna Bed No. 4. (13ft.across.61 bulbs). 7 orange for center and first row, 12 scarlet for second row, 18 yellow for third row, 24 red for fourth or outside row, or all 61 one color except orange.

For Borders around Canna Beds. Use any of the following, planted about a foot apart.

☐ African Lilac Daisies, ☐ Centaureas, ☐ Calendulas, ☐ Dusty Miller, ☐ Four O'Clocks, ☐ Marigolds, ☐ Mourning Bride, ☐ Trailing Nasturtiums.

☐ 50c Flowering Border. (12 plants) Any assortment you wish of Border plants above, for beds No.1A,1B.

☐ \$1. Flowering Border. (25 plants) Any assortment you wish of Border plants above, for beds No. 2A,2B.

☐ \$1.50 Flowering Border. (36 plants) Any assortment you wish of Border plants above, for beds No.3A,3B.

☐ \$2.Flowering Border. (50 plants) Any assortment you wish of Border plants above, for bed No.4.

☐ Coleus, ☐ Salvia Scarlet Sage, ☐ Flowering Vinca or Periwinkle.

☐ \$1. Flowering Border. (12 plants) Any assortment you wish of Border plants above, for beds No.1A,1B.

☐ 2. Flowering Border. (25 plants) Any assortment you wish of Border plants above, for beds No. 2A,2B.

☐ \$3. Flowering Border. (36 plants). Any assortment you wish of Border plants above, for beds No.3A,3B.

☐ \$4. Flowering Border. (50 plants) Any assortment you wish of Border plants above, for bed No.4.

 Plants at above prices can only be supplied in combinations as shown. Order by number or place check in square ☐ opposite assortments or quantities desired, tear out page, fill in below and mail to:-

BULBS AND TUBERS cont'd.

CANNAS

RED AND RED SHADES

Prices on all Red Cannas, except where noted. Each 15c; 2-25c; 5-50c; 12\$1.; 100\$5.

-Crimson Bedder. 4ft. Strong compact grower. Free bloomer, green foliage, good bedder.

-Chas. Henderson. 4ft. Crimson flowers. Good bedder. Roots winter well.

-Firebird. 4ft. Clear glistening scarlet. Flowers borne in immense trusses on strong stalks well above the leaves.

-King Humbert. 4ft. Scarlet flowers, bronze leaves, greatest favorite today. This remarkable "Gold Medal" canna has been the sensation of the past nine years. Extra large flowers, very free-blooming. Handsome broad, bronze, tropical foliage.

-President. 4ft. In color a rich glowing scarlet with immense rounded flowers 7ins. across when fully open. Produced on strong erect stalks well above the large green foliage. Free bloomer and strong grower. Each 20c; 2-35c; 8\$1.; 12\$1.50; 100\$10.

-Wintzers Colossal. 5ft. Vivid scarlet, retaining its brilliancy. Very attractive flower of immense size.

-American Beauty. 5ft. A new variety with extreme merit. Color-velvety oriental carmine. Very rich and unusually attractive with its large flowers held on firm, straight stems in large trusses well above the foliage. Strong, vigorous grower. Each 35c; 3\$1.

Collection of 1 each of the 7 named red cannas. Each labelled, \$1.

YELLOW AND YELLOW SHADES

Prices on all Yellow Cannas, except where noted. Each 15c; 5-50c; 12\$1.; 100\$5.

-Austria. 3-4ft. Bright green dense foliage. The flower opens like a lily with stiff petals and is 4-5ins. across, of a fine bright lemon-chrome yellow with red spots in throat. A most attractive and beautiful shade. With us it is the best grower and bloomer of all yellow Cannas.

-Florence Vaughn. 3½ft. A famous yellow Canna. Pure yellow spotted crimson large flowers, borne well above the green foliage.

-Yellow King Humbert. 4ft. Foliage a very dark green, with flowers measuring 5-7ins. across. Individual flower petals 3-3½ins. in diameter. Color a deep rich yellow, softly spotted and blotched with bright red. Each 20c; 3-50c; 12\$2.

-Burbank. 5ft. Close-clinging large flowers, of lemon-yellow, with a spattering of bright scarlet. Each 25c; 5\$1.

-Richard Wallace. 4ft. A light shade of canary-yellow, almost an ecru, with delicate flecks of red.

Collection of 7 yellow cannas, including the 5 named varieties, each labelled, \$1.

BULBS AND TUBERS cont'd.

CANNAS

PINK AND PINK SHADES

Price on all pink cannas, except where noted, Each 20c; 2-35c; 8\$1.; 12\$1.50; 100\$10.

-Hungaria. 3½ ft. A fine pink canna. Very compact almost dwarf and of a very luxuriant growth. Leaves bluish green, never burns. Trusses of enormous size, borne well above the foliage. Flowers large, with large petals. Color purest La France pink with satin sheen.

-Rosea Gigantea. 3-4 ft. A magnificent showy canna, rose or carmine-pink. Flower heads of immense size.

-Mrs. A. F. Conrad. 4 ft. Exquisite salmon-pink flowers of the largest size. Produced in fine erect spikes well above the green foliage.

-City of Portland. 3½ ft. Distinct pink canna, which does not fade during the hot weather. Each 25c; 5\$1.

-Miss Florence Hall. 3½ ft. Foliage rich green, massive trusses of immense flowers, a constant bloomer, does not fade in our hottest sun. This pink canna is unlike anything on the market today. Its blossoms are massive. The outer portion of the immense bloom is a rich pink graduating to the center with splashes of warm flesh with just enough gold flecked into the throat to please the most exacting eye. Each 25c; 5\$1.

Collection of 1 each of the 5 named pink cannas. Each labelled, \$1.

ORANGE AND ORANGE SHADES

Price on all orange cannas, each 15c; 4-50c; 9\$1.; 100\$9.

-Panama. 4 ft. An attractive rich orange-red, well defined edge of bright golden-yellow. Flower very large.

-Indiana. 6 ft. Glistening golden orange flowers, with silky texture. Very attractive.

-Orange Bedder. 4 ft. Attractive bedding variety. Bright orange with just enough scarlet suffusion to intensify the dazzling mass of color.

-Wyoming. 6 ft. Great plumes of large, orange-colored blossoms, on very tall, erect stems. Foliage rich purple bronze.

-California. 4 ft. One of the best orange flowered Cannas.

WHITE AND WHITE SHADES

Price on all white cannas, each 25c; 5\$1.; 12\$2.; 100\$15.

-Eureka. 4 ft. Remarkably free flowering variety and with its striking white-flowers which first appear cream, makes a very effective show in conjunction with a good crimson or scarlet such as Chas. Henderson or King Humbert.

-Flag of Truce. 4 ft. A large cream-white canna with faint pink dots on each petal.

-Snow Queen. 4 ft. A vigorous-growing white canna, large in flower and free in bloom. The flower trusses are 6 ins. across with rounded petals 2½ ins. broad.

GIANT FOLIAGE, 6-8 ft. Small flowered prolific growing cannas, for screen or back ground planting in green or bronze foliage. 3-15c; 12-50c; 100\$3.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

BULBS OR TUBERS (Continued.)

DAHLIAS

CULTURE. The dahlia grows in any good garden soil. Sandy or gravelly soil which need not be very rich also suits them, should be worked deep and well prepared. Avoid manure as it causes heavy growth of foliage at expense of bloom. Plant 2½ ft. apart, laying tubers flat, covering 4-6 ins. deep. They may be planted, soon as frost is over, but in our climate, later planting, up into June is very desirable.

After heavy frost in fall, dig tubers carefully, store in a dry, cool cellar for winter. Divide roots in spring, preferably to one eye or tuber, before planting. We send out divided field grown roots only. (These are much more satisfactory than weak, tender, green plants sometimes offered). If stored in a cool place, not too dry, until planted out every one will grow. All our stock is stored in a way, which preserves them in a healthy, plump condition until planting time.

CLASSES. Dahlias are divided into a number of classes, some of which are Decorative, Cactus, Peony, Show.

Decorative dahlias have flowers that are open wide and flat, full to the center, petals overlapping. Some of the largest flowers are found in this class and are used extensively for cut flowers. This class is considered by many to be the best type of all dahlias.

Cactus. This type is quite different from any of the others, having long narrow pointed tubular and twisted petals. Flowers resemble the Chrysanthemum.

Peony. Flowers resemble the semi-double Japanese Peonies, the flowers showing a yellow center and semi-double petals sometimes curved and twisted. Flowers of this type are unusually large and graceful.

Show. This is the oldest type, petals are quilled. The modern show dahlias however are still grown for cut flowers and are among the most beautiful of all dahlias.

-Varieties offered are some of the best double-flowering Dahlias now grown. Flowers often attaining a size of 5-6 ins. across under ordinary cultivation. All desirable cut flower varieties.

-Crimson Bedder. (Show) Deep crimson, wonderful bloomer. Each 20c; 6\$1.; 100\$15.

-California. (Decorative-Peony) a brilliant yellow. Each 25c; 5\$1.

-C. W. Bruton. (Decorative) Bright yellow, very large. Each 25c; 5\$1.

-Czar Ferdinand. (Decorative). Wine red, large double. Each 25c; 5\$1.

-Floral Park Jewel. (Show) Neutral red, striped white. Each 35c; 4\$1.

-J. G. Gassett. (Decorative) Large clear rose or lavender pink. Each 35c; 4\$1.

-Golden West. (Cactus) Best one of the full double, long stemmed, quilled yellows. Each 25c; 5\$1.

-Navajo. (Decorative) Fine dark red. Each 25c; 5\$1.

-Purple Gem. (Decorative) Pleasing shade of purple. Each 25c; 5\$1.

-Purple Manitou. (Decorative) Deep violet purple. Enormous flowers. Each 25c; 5\$1.

-St. Elmo. (Peony) Old gold suffused bronze. Each 50c; 5\$2.

-Sylvia. (Decorative) Beautiful deep pink softening to white center. Each 25c; 5\$1.

-Mixed. All types and colors. Each 20c; 2-35c; 12\$1.50; 100\$10.

\$1. Dahlia Combination "A". Contains one tuber each of 6 named varieties, our selection. Assorted colors, not labelled.

\$2. Dahlia Combination "B". Contains 18 tubers. A general mixture of many types and colors.

\$2. Dahlia Combination "C". Contains one each of 10 named varieties, not labelled, assorted colors and types.

\$3. Dahlia Combination "D". One each of our 12 listed named varieties, all labelled.

 Plants at above prices can only be supplied in combinations as shown.

GLADIOLI—KING OF FLOWERS

Gladioli are the most attractive and useful for cut flowers of all the summer flowering bulbs. They give you giant spikes of perfect blooms with wonderful colors in fascinating profusions. The long graceful spikes carry often twenty buds, may be cut as the first lower flower opens. Placed in water, each successive bud develops a perfect flower.

Special Notice. To have an abundance of flowers for cutting till freezing weather in fall, plant all sizes "large bulbs" down to "planting size" and "bulblets," planting each size separately so that they may develop without interference early in season from the larger and stronger bulbs, which make the most vigorous growth and are first to bloom.

Our grand collection of Gladioli combined into one assortment—

"Exhibition Fine Mixed," comprises the better and newer varieties in bright attractive colors, that are in demand by florists for cut-flower and exhibition purposes.

Exhibition Fine Mixed Gladioli Bulbs.

-Mammoth Bulbs. Each 15c; 4-50c; 9\$1.; 100\$10.

-Extra large Bulbs. Each 10c; 6-50c; 12\$1.; 100\$7.

-Large Size Bulbs. 3-20c; 9-50c; 20\$1.; 100\$4.

-Large Blooming size Bulbs. 5-20c; 12-35c; 36\$1.; 100\$2.75.

-Small Blooming size bulbs. 6-15c; 12-25c; 50\$1.; 100\$1.75.

-Planting size bulbs. 12-15c; 24-25c; 100\$1.; 200\$1.50.

-Small bulblets. 25-15c; 48-25c; 200\$1.; 300\$1.25; 1000\$3.

\$1. Gladioli Special 101G. (12bulbs). Extra large, florists exhibition varieties. Assorted colors.

\$1. Gladioli Special 102G. (25bulbs). Large, exhibition varieties. Assorted colors.

\$1. Gladioli Special 103G. (36 bulbs). Large early blooming size. Assorted colors.

\$1. Gladioli Special 104G. (50bulbs). Small late blooming size. Assorted colors.

\$1. Gladioli Special 105G. (100bulbs). Planting size, for fall blooming. Assorted colors.

\$1. Gladioli Special 106G. (200bulblets). Assorted colors, for late blooming.

\$5. Gladioli Special C107G. (423bulbs and bulblets). The 6 assortments as shown above. Wonderful combination of all sizes and colors, furnish daily, throughout season till frost, an abundance of fine bloom spikes for cutting, or garden decoration.

 Plants at above prices can only be supplied in combinations as shown.

HARDY HERBACEOUS PERENNIALS

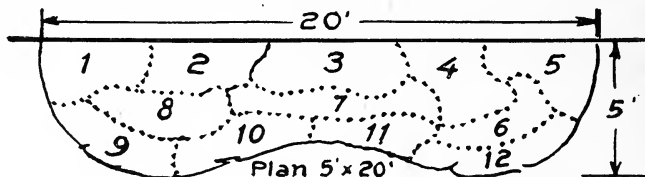

“LIVE OVER WINTER” FLOWER PLANTS

Such plants may be allowed to remain permanently in the open ground, some are evergreen but mostly the foliage dies down to or near the ground each autumn, coming forth again with renewed vigor the following spring.

Year after year the perennial plants reappear and flower abundantly. As each variety has a fixed time of blooming, a selection of plants can be made that will give flowers to cut and enjoy each day of the season—from earliest spring until fall. They require little attention, for a light mulching with fertilizer in the fall and some care as to the weeding and watering during the growing season is usually sufficient. In preparation of soil for planting perennials, dig deep and plant in well pulverized soil, work in rotted manure if available. Frequent cultivation, keeping out all grass and weeds are the secrets of beautiful flowers.

100 CHOICE PERENNIALS \$15

You, without doubt, have wished for a flower garden. This special offer affords an opportunity for every lover of flowers. The little sketch shows how to produce with the layout and planting of the twelve varieties of perennials in our offer, the taller growing ones being placed in the rear, the mediums in the center and the low growing one in the front, as shown by the numbers 1, 2, 3, etc., each of which refers to one of the twelve varieties. These plants should be planted approximately a foot apart. Any good garden soil is satisfactory, the whole bed being well spaded before planting.

1. 8 Spring Daisy, *Chrysanthemum* specie. 3ft. White.
2. 8 Anchusa, *Italica* Dropmore. 3ft. Very blue.
3. 10 Asters, *Tataricus*. 3-4ft. Purple-violet.
4. 8 Asters, *Novi-belgi* Climax. 3ft. White.
5. 8 Baby's Breath. *Gypsophila*. 3ft. Whitish.
6. 8 Achillea, *Rosy* Milfoil. 2ft. Rosy red.
7. 10 Gaillardia *grandiflora*. 2ft. Scarlet and Yellow.
8. 8 Achillea, *The Pearl*. 2ft. White.
9. 8 *Dianthus barbatus*. Sweet William. 1½ft. Pink.
10. 8 *Artemisia Stelleriana*. 1½ft. Silvery white.
11. 8 *Liatris*. Gay Feather. 1½ft. Lavender-purple.
12. 8 *Iris, Siberica*. 1½ft. Blue and White.

100 Plants.

HARDY HERBACEOUS PERENNIALS (Continued.)

All hardy herbaceous or perennial plants are strong field grown plants or clumps except where noted:

Bedding plants are of one seasons growth and while every variety will not always bloom the first season most of them will, and they are very desirable for planting. The varieties of which such plants can be supplied in addition to the usual field grown plants, are indicated by a star (*)

The height is given in feet or inches as 1½ft., 2ft., etc. and blooming period as June-July, Aug.-Oct. as the case may be.

CARNATION see Dianthus.

CATNIP see Nepeta.

CAT-TAIL see Typha.

All hardy plants on this page, except where noted, Each20c;6\$1;100\$15.

HARDY CHRYSANTHEMUMS

Hardy "Mums" are liked by all. They produce a wonderful display of bloom long after most flowers are gone. The many colored flowers on long graceful stems are unexcelled for bouquets, table and other decoration often lasting for weeks after cutting under favorable conditions.

CULTURAL DIRECTIONS FOR CHRYSANTHEMUMS:—

When to plant. Soon as ground can be worked in spring after danger of freezing is over, even up to June 20th, will give good blooming plants in fall.
How to plant. Dig ground deep, most any kind of soil that will grow anything else will grow "Mums" Work in some good rotted manure or fertilizer if available, if f.d well, plants will be strong and flowers larger. Have soil loose and mellow, set plants like you would cabbage and tomatoes, spacing them 15-18ins.apart. Press moist soil firmly around roots. Cultivate often, keep grass and weeds out.

Stopping or shaping plants. To prevent straggly spindly growth and secure more bushy and rounded type plants, when 8ins.high cut back to 6ins.in height. When new shoots are 4ins long, pinch out the terminal bud, this tends to produce desirable stock type plants.

Disbudding Treat as above, but only allow one flower bud on each stem and that a terminal bud. Keep all side buds pinched out. While we do not approve of this method it produces larger individual flowers.

\$1 CHRYSANTHEMUM COLLECTION

Assortments of Hardy Outdoor Varieties

HARDY CHRYSANTHEMUMS (Continued.)

Classification. Our chrysanthemums are divided into six groups. Aster-Flowered, Button-Types, Large-Flowering, Pompoms, Pompom-Aster, Pompom-Button. Each representing a different type of flower, but all are hardy desirable varieties.

ASTER-FLOWERED VARIETIES:—

Normandie. Pale canary yellow, bushy upright grower, completely covering itself with a solid mass of blooms, in close clusters, on strong stems for cutting.

White Dotte. Creamy white blooms. Medium upright bushy type. Very prolific and showy for decorative planting.

Collection of 12 Aster-Flowered, two varieties \$1, not labelled.

BUTTON VARIETIES:—

Baby Marguerite. Creamy white fading to pure white, red flecked flowers in large clusters. Excellent for cutting. Dwarf bushy or potting type.

Brown Bessie. Chestnut or wall flower red changing to mahogany brown. Dwarf bushy pot type. Small extra double button type flowers in clusters completely covering the plant for long blooming period. Each 25c; 5\$1.

Klondyke. Bright yellow, bronze center. Late bloomer, bushy pot type. Very desirable for potting for house and conservatory use.

Maude Gray. Chestnut or terra cotta red changing to brownish or burnt orange. This is one of the finest hardy Button Chrysanthemums. Dwarf bushy grower, fine for cutting and potting. Each 25c; 5\$1.00.

Susquehanna. Bright yellow, tall grower. Late.

Collections of 8 buttons five varieties \$1.

LARGE-FLOWERED VARIETIES:—

Autumn Glow. Pink and lilac shades. Strong grower, covering itself completely with large extra double flowers on long stems for cutting. Early bloomer, a valuable variety.

Golden Queen. Best yellow often measuring 4 ins. in diameter. One of the best blooming hardy Mums. Each 25c; 5\$1.

Lavender Queen. Lavender or purple flowers. Prolific grower. Good foliage. Fine for cutting.

Mary Katherine. Variegated colors in brilliant chestnut red, with pink and autumn shades. Extra large double flowers on long stems. Red and autumn tinted foliage. All that can be asked for in a hardy Chrysanthemum. Each 35c; 4\$1.

Marie Antionette. Pinkish lavender. Tall, strong grower. Fine for cutting.

Mrs. Roberts. Rose pink flowers often measuring 4 ins. across. Strong upright grower. Immense clusters on long stems for cutting.

Oconto. Pure white, fine large full double blooms on very strong stems. Commences to bloom very early and continues till November.

Old-Fashioned Pink. Beautiful lavender pink.

Old-Fashioned White. Very large type. Long blooming period.

Old-Fashioned Red. An old favorite, very desirable.

Old-Fashioned Yellow. Very large type.

White Victory. Snowy white with incurving center and horizontal outer petals, very full or double. One of the earliest large flowering white "Mums." Very lasting as a cut flower. Dwarf, low branching type.

Collection of 8 Large-Flowering, our selection \$1.

All hardy Chrysanthemums except where noted. Each 20c; 2-35c; 3-50c; 8\$1.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

HARDY CHRYSANTHEMUMS (Continued.)

POMPOM VARIETIES:—

Golden Climax. Bronze-gold, extra large full pompom flower. Medium high bushy type. Each25c;5\$1.

Sunshine. Bronze or golden yellow. One of the best, large full pompom flowers, dwarf upright bushy type. Early bloomer unexcelled for potting and cutting. Each25c;5\$1.

Lillian Doty. Shell pink shading to delicate pink. Extra fine variety. Strong high-bush type, covered with solid mass of flowers in immense clusters on good strong stems. Blooms full rounded and very double, finest cut flower variety. Each25c;5\$1.

Collection of 5 Pompoms. three varieties \$1.

POMPOM-ASTER VARIETIES:—

Clara. White with pale lemon center. Tall upright grower.

Firelight. Carmine shaded garnet, yellow centered. Large-flowering, upright bushy type. Each25c;5\$1.

Fernridge. Reddish bronze, tall grower, desirable sort. Each25c;5\$1.

Hardy Indian. Old-fashioned Indian red. One of the most popular hardy red Mums in cultivation.

Hortense. True pink, dwarf bushy, medium high, extremely prolific, dense foliage with flowers in solid masses. This is the finest pink in the large flowered pompom class for general planting. Each25c;5\$1.

Julian. Brightest yellow prolific blooming, tall upright type. Open in growth. Good foliage. Long stems, showy as a cut flower.

Mrs. W. E. Buckingham. Salmon pink, bushy pot type, one of the showiest dwarf hardy Mums in cultivation. Each25c;5\$1.

Old Homestead. Red or rich pink, yellow center. A very popular hardy Mum and a good red for general planting.

Entire collection of 8 Pompom-Aster \$1.

POMPOM-BUTTON VARIETIES:—

Lucifer. Ox-blood red or deep chestnut over-laid yellow or bronze. Medium high, bright foliage, long stems for cutting. One of the best red golden-tipped hardy Pompom Mums in cultivation. Each 35c;4\$1.

Minta. Flesh pink with red and yellow center. Very bushy, compact plant. Covered solid with masses of blooms on stiff stems with good green foliage for cutting. We can recommend this variety where a large amount of bloom is desired.

Mrs. Stanley. Deep reddish pink or wine red, dwarf and bushy. Suitable for potting. Each25c;5\$1.

Collection of 5 Pompom-Button, three varieties \$1.

SPECIAL 208C. Entire collection of Hardy Early flowering Chrysanthemums, 40 Plants. Twenty-five varieties, all labelled, our selection \$5.

CHRYSANTHEMUM Japonicum. New, These Japanese hardy Herbaceous Perennial Hybrid Chrysanthemums are extra fine single and the most brilliant and unique colors imaginable. The earliest bloomer of all Mums, very attractive for bouquets. 2ft. Aug-Oct. Assorted colors. Each25c;5\$1.

-Maximum. King Edward. Large vigorous, white flowers. 2ft. Flowers all summer in most localities.

-Shasta Daisy. Alaska. Large white flowers, blooms profusely all summer in most localities.

-Spring Daisy. A special Weaver Gardens strain of early spring flowering Daisy. Extremely hardy outside. Grows and blooms well for everyone in all kinds of soil, even poor sand. Withstand heat, cold, drouth and excessive rains. The most wonderful blooming white (yellow center) Daisy in cultivation for Kansas or similar weather conditions. Fall planted outside, flowers for Mother's Day and in abundance thereafter. Spring planted blooms some later but at its best for Decoration Day. Long stems and unexcelled for cutting. You will make no mistake by including Spring Daisy in your order. 2-3ft. May-July.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

HARDY HERBACEOUS PERENNIALS (Continued.)

-*Leucanthemum*... An early flowering Spring Daisy similar to Spring Daisy but much smaller flowers on shorter stems and somewhat later to bloom. May-July.

CENTAUREA macrocephala. Very showy, with large, thistle-like yellow flowers. 3ft. July-Aug.

-*Montana*. Blue. Perennial Cornflower. Large flowers resembling the Cornflowers. 2ft. June-Sept.

-*Montana Alba*. A fine white form of the above.

CHEIRANTHUS allioni. Wallflower. Fiery orange flowers, 1ft. All summer.

CHELONE barbatus. Shell flower, Turtlehead. Tall spikes of brilliant scarlet flowers. Fine for cutting. 4ft. June-Sept.

COLUMBINES see *Aquilegia*.

CORREOPSIS lanceolata grandiflora. One of the most popular hardy plants. The flowers are a rich golden yellow, of graceful form and invaluable for cutting. The main crop comes during the latter part of June. It succeeds everywhere. 2-3ft. May-Aug.

DAISY—See *Bellis Perennis*.

DAISY, Hardy Marguerite—See *Anthemis*.

DAISY, Spring and Shasta—See *Chrysanthemums*.

DAISY, Persian or Painted—See *Pyrethrum*.

DELPHINIUM. Hardy Perennial Larkspur. Beautiful hardy plant. Excellent for cutting. Assorted varieties, all shades of blue. 2ft. June-Oct. 1yr. each 25c; 5\$1.; 2yr. each 35c; 4\$1.

DIANTHUS barbatus. Sweet William. The finest of all Decoration Day flowers. Weaver Gardens special assorted colors, single and double mixed. 1-2ft. May-June.

*-*barbatus*. Sweet William. In assorted or separate colors, Red, white and rose. 2ft.

*-*barbatus*. Newport Pink. A distinct variety in this favorite flower, being a salmon-rose-pink.

-*barbatus*. Scarlet Beauty. Rich deep scarlet flowers with bright green foliage.

*-*barbatus*. Double, assorted colors. 2ft.

DIANTHUS. Hardy Pink. Interesting and useful, blooming in early spring. Varieties we offer are improved forms of old-time favorites. Fine for cut-flowers. 1-2ft. May-June.

*-*Caryophyllus*. Hardy Carnations. Fragrant. In assorted double varieties or separate colors. Red, white and pink. 1½ft. May-July.

-*Chinensis*. China or Indian Pink. Elegant fringed flowers in various shades.

*-*Delicata*. Hardy Garden Pinks. Single rose-pink, petals striped red and variegated. A very beautiful and desirable variety.

-*Grenadin*. Hardy double Garden Pinks. Bright scarlet and pink flowers on long stems.

*-*Grenadin Alba*. A white form of the above.

DIGITALIS. Foxglove. These old garden favorites are stately and elegant in summer when they produce bold masses of leaves and flower-spikes. Mixed colors, includes rose, purple and white. 2-3ft. June-July.

ECHINOPS ritro. Globe Flowers. Metallic blue flowers. Thistle-like foliage. 3-4ft. July-Aug.

*-*ERYNGIUM*. Sea Holly. Steel-blue flowers. 2ft. July-Aug.

All hardy plants on this page, except where noted. Each 20c; 6\$1.; 100\$15.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

HARDY HERBACEOUS PERENNIALS (Continued.)

***EUPATORIUM coelestinum.** Hardy Ageratum or Mist Flower. An extraordinary desirable hardy border plant with light lavender blue flowers, similar to ageratum, covering the plant completely. Does well for everyone and one of the most desirable Hardy Perennials for cut flowers. 1ft.Aug-Oct.

-**purpureum.** Joe Pye Weed. Purple. Fine for wild garden in clumps or among the shrubs. 3-4ft.July-Sept.

FUNKIA. Plantian or White Day Lily. See Lilies.

FOX GLOVES see *Digitalis*.

GALTONIA, Giant Summer Hyacinths (*Hyacinthus Candicans*.)

A specie of Hyacinths which bloom from July to October, if planted in spring. The bulbs throw up numerous flower stems, 3-5ft.high, with gigantic spikes of 20-30 thimble-shaped white blossoms. A bed of a dozen or more bulbs produces a grand effect. For a cemetery nothing can be more beautiful or appropriate and nothing thrives better in any situation. 2 and 3yr. size are blooming bulbs. 1yr. requires more growth.

-Small 1yr.size bulbs.5-15c;10-25c;100\$2.

-Large 1yr.size bulbs.3-15c;12-50c;100\$3.50.

-Large 2yr.size bulbs.Each10c;3-25c;12\$1.;100\$6.

-Large 3yr.size bulbs.Each20c;6\$1.;100\$15.

***GAILLARDIA aristata** (*grandiflora*). Blanket flower. Yellow and orange-red. The brilliancy of the Gaillardia is unsurpassed. It is simply invaluable among cut-flowers on account of retaining its beauty for so long a time. Should be in every garden. It flowers from May to November. 1½ft.Each20c;6\$1.;100\$15. (Seeds pkt.25c;5\$1.)

GALEGA officinalis. Goat's Rue. Rosy purple flowers. 3-4ft. July.

GOLDEN GLOW see *Rudbeckia*.

OCTOBER GOLDEN GLOW, see *Helianthus*.

GOLDEN ROD see *Solidago*.

GRASSES arundo donax. Giant Reed. Bamboo Grass. A magnificent variety, growing to a height of 15ft. and forming dense clumps. Each50c;5\$2.

-**Erianthus Ravennae.** Plume or Pampass Grass. Grows from 7-10ft.high and produces from thirty to fifty spikes. Each50c; 5\$2. Clumps90c;\$1.25.

HARDY HERBACEOUS PERENNIALS (Continued.)

***HELIANTHUS.** Hardy Sunflower. Easy of culture in any ordinary garden, admirable for tall flower and shrubby borders. The large flowers on long stems are fine for cutting. 4-5 ft. July-Oct.

*-**Maximillianii.** One of the latest-blooming of all hardy flowers. Extra large clear yellow flowers. 6-8 ft. Oct-Nov.

*-**Mollis grandiflora.** Dark stems, scabrous, hairy foliage and pretty, pale yellow flowers with dark center. 4 ft.

-**Orgyalis.** A native variety with graceful stalks clothed with very long willowy, drooping foliage and flowers of deep lemon-yellow with darker centers. 6-8 ft. Aug.

*-**Sparcifolia.** The best of the summer-blooming varieties of hardy Sunflowers. Flowers 3 ins. in diameter and freely produced. Plant grows 5-6 ft. high and spreads rapidly. Fine for the border and for planting among shrubs.

*-**Specie.** October Golden Glow, Autumn Sun. Fine large golden yellow flowers, 4-5 ins. across, in long graceful sprays on stems 2-4 ft. long, producing a grand effect that is exceedingly attractive. Invaluable as a cut-flower for mass or showy decoration and for screen, background and clump planting, where abundance of flowers are appreciated.

-**tuberosa.** Mammoth White French Jerusalem Artichoke. Numerous yellow flowers. In addition to its desirability as a screen or background yellow blooming plant, it is cultivated for its edible tubers which are very large and produce enormous yields. 5-6 ft. Aug-Sept.

HELIOPSIS, Hardy Zinnia. The flowers are deep golden yellow, about 2 ins. in diameter, thick texture and very graceful for cutting. 3-4 ft. July-Sept.

HEMEROCALLIS. Tiger Splendens Day Lily see Lilies.

HIBISCUS Mallow Marvels. A robust type, with deeply cut foliage and large flowers in shades of crimson, pink and white. Thrives in hot dry situations or for sunny foundation planting. 3-4 ft. July-Oct.

-**Moscheutes.** Rose-Mallow. The flowers are 6 ins. in diameter, of a light rose with darker eye. 3-4 ft. July-Oct.

-**Hybrids.** Giant Flowered Marsh Mallows. These have grown fast in popularity. The mammoth hollyhock-shaped flowers range in color from white to intense crimson but there is a softness and delicacy to all the shades that make them harmonize with almost any color scheme. They grow well for everyone. Plant some of these gorgeous flowers in your garden by all means. Our stock is extensive and of the highest quality. All the roots offered will produce blooming plants next summer. 3-4 ft. All summer.

Prices on all varieties of Hibiscus.

-1 yr. Each 25c; 5 \$1.; 12 \$2.

-2 yr. Each 35c; 4 \$1.; 9 \$2.

IRIS

(Pogon or Tall Bearded)

NO GARDEN IS COMPLETE WITHOUT IRIS

There is a stateliness of extreme beauty and splendor about the new Iris. Beautiful orchid-like flowers possess a most pleasing fragrance. The Iris is of easiest culture. No flower is more satisfying for home decoration. If cut in the bud when about to open, the flowers will expand in the house in their full richness of color and last a long time. Every bud will blossom, replacing with a fresh flower those which fade. The stiff strong stems and excellent keeping qualities are advancing them into rapid favor as a cut flower. No flower deserves more extensive planting. Our list includes desirable standard and newer sorts.

\$1. IRIS COLLECTIONS

Assortments of desirable cut flower and fragrant varieties. An Iris bed will not only be a source of joy to you but a Mecca for the flower lovers of your community.

HARDY LILIES (Lilum)

No herbaceous or shrubby border or flower garden is complete without these most graceful and charming flowers. Plant 5-6ins deep, (with some sand under each bulb). While it does fine planted in beds or alone in the garden, if planted among other plants, preferable plants with heavy foliage like Peonies, in order to keep the soil cool around the bulbs, you will be astonished at the wonderful flowers you can grow.

NATIVE LILIES. Varieties best adapted for general outside planting. We have dormant bulbs for early spring shipment, same as in fall and winter.

-Candidum. Madonna Lily. Pure glistening white flowers on strong stiff stems. A real hardy desirable ornamental garden lily which we highly recommend for general planting. 2-3ft. June-July. Each 35c; 4\$1.

-Tigrinum. Tiger Lily. The well known and beautiful Tiger Lily. A vigorous grower producing brilliant orange colored flowers, black spotted. Very hardy, does well for everyone. 3-5ft. July-Aug. Each 25c; 5\$1.

-Tigrinum flore pleno. Double Tiger Lily. Orange-red spotted with black, double showy flowers. 3-4ft. July-Aug. Each 30c; 4\$1.

-Tigrinum Fortunei. Rich orange colored flowers spotted crimson-brown. 3-4ft. July-Aug. Each 30c; 4\$1.

-Tigrinum Splendens. Large bright salmon-red flowers, spotted purplish black. Robust grower. 3-4ft. Aug.-Sept. Each 30c; 4\$1.

Collection of the 4 above Tiger Lilies \$1.

EUROPEAN LILY-Lilium Regale. A new hardy, scarce, garden lily from Western China. White flowers with the outside of petals deep rose, deliciously fragrant. 3-5ft. 1yr. bulbs. Each 35c; 4\$1.; Large 2yr. blooming size bulbs. Each 75c; 3\$2.; Large 3yr. bulbs. Each 90c; 4\$3.

MISC'L LILIES-Belcanda Chinensis. Blackberry Lily. Orange colored flowers, 2ins. across spotted with purple-brown, seed resembles blackberries. A very showy hardy herbaceous perennial and well adapted for foundation border and bed planting. 2-3ft. July-Aug. Each 35c; 4\$1.

-Crinum. Milk and Wine Lily. A grand sort. The most beautiful of the Crinums. Its bulbs grow large and its strong growing foliage is erect and sword-shaped. Flowers in umbels very large and showy, 3-4in. in diameter striped with white and carmine and very fragrant. Long blooming season extending into October. Hardy from Kansas South. Each 35c; 4\$1.

-Convallaris majalis. Lily-of-the-Valley. Blooms May. Height 6-10ins. Heavy dark green foliage, with small bell-shaped, pure white flowers, in pretty racemes, graceful and extremely fragrant. Does better in rich moist soil. Succeeds best in partial shade. Each 25c; 5\$1.

-Fairy or Carpet. A specie with grass like foliage, rapidly multiplying itself by underground rootlets. Pink-lavender, three petaled star shaped flowers, blooms in abundance early in season. Foliage disappearing later and not reappearing before spring. Each 20c; 3-35c; 5-50c; 12\$1.

-Funkia. (Hosta, Niobe). Plantian or White Day Lily. Very handsome and will thrive in almost any shaded or partially shaded position. They are invaluable for beds or borders in both dry and marshy ground. Both the foliage and flowers are distinctly beautiful. 1½-2ft. July-Aug. Each 50c; 5\$2.

-Hymenocallis Occidentalis. White Japanese Spider Lily. The florets are disposed in rays and resemble an immense spider of large size. Pure white and deliciously fragrant. This is a most desirable flower. Large blooming size bulbs. Each 35c; 4\$1.

-Hemerocallis. Day Lily. Large lovely sweet-scented orange, lemon-yellow and sulphur-yellow flowers. Very fragrant. Excellent for cut-flowers. 2-3ft. May-July. Each 25c; 5\$1.

-Tiger Splendens. Day Lily. Strong growing variety with tall graceful wide-blade grass like foliage, extra large orange-yellow brown tiger spotted flowers, measuring 5-6ins. across, 3-4ft stems. The most profuse bloomer and consistent grower under adverse conditions, in the Day Lily family. Each 35c; 4\$1.; Clumps 65c, 90c.

Entire collection of 14 Lilies, each labelled \$4.

HARDY HERBACEOUS PERENNIALS (Continued.)

KNIPHOFIA see *Tritoma*.

LATHYRUS latifolius. Everlasting Sweet Pea. Flowers white, deep and soft colored, large, on many flower stems similar to the annual sweet peas. Too little known. They are extremely showy, beautiful climber for trailing on low trellis, arbors, etc. 4-5ft. June-Aug. 1yr.35c; 2yr.65c; 3yr.90c.

LAVENDULA officinalis. True Sweet Lavender. Delightfully fragrant blue flowers. 1½ft. July-Sept. Each 35c; 4\$1.

LESPEDESA Bushclover.

-**Albiflora**, Japanese Bushclover, Tall bushy shrub with graceful slender branches, oval clover-like leaves and a profusion of pea-shaped flowers, very attractive for general planting. 4-5ft. July-Aug. 1ft.35c; 1-2ft.65c; 2-3ft.90c.

-**Formosa**, Purple Bushclover. Dwarf bushy growth, graceful branches covered with flowers in showy racemes. Adapted to all situations. 2-3ft. July-Sept. 1ft.35c; 1-2ft.65c; 2-3ft.90c.

LIATRIS pycnostachys. Blazing Star. Gay Feather. One of the choicest and boldest species. Flowers purple, in dense spike which bloom a long time. Foliage thick and grass-like. Excellent for masses in the border. 4-5ft. June-July. Each 35c; 4\$1.

-**Spicata.** Kansas Gay Feather. Native to western and southern states. This *Liatris* produces its flowers of pretty rose and purple shades on wand-like racemes, in late summer and autumn. They will thrive in poorer soil than most garden perennials and are very effective and charming plants in the border. 2-3ft. Aug-Oct. Each 25c; 5\$1.; 100\$15.

LINARIA vulgaris. Toad Flax. Butter and Eggs. Fine for borders or perennial gardens. Glauous blue foliage and spikes of golden yellow blossoms like miniature Snapdragons. Loves a sunny spot in well drained soil. 1-3ft. May-July. Each 25c; 5\$1.

***LINUM perenne.** Hardy Blue Flax. A lovely attractive foliage plant with beautiful pale blue flowers on slender graceful stems. 1-1½ft. May-Sept.

LUNARIA redivioa. Old Honesty. An old but rare and scarce hardy herbaceous perennial of great merit. Abundance of pinkish lavender flowers and long blooming period in early spring, followed by ornamental silvery seed pods. 1-2ft. April-June. Each 35c; 4\$1.

-**LUPINE polyphyllus.** These hardy perennials are showy plants with velvet-like leaves and conspicuous butter-fly-like, free blooming white and blue flowers in terminal racemes. Very lovely plants for the border or for massing. They are of easy culture, but do not grow well in a lime soil. 2-3ft. June-July. Each 35c; 4\$1.

LYCHNIS chalcedonia. (Maltese Cross-Ragged Robin). The best known and loved of the old fashioned flowers and no garden can afford to be without a representative, as they are of the easiest culture and most pleasing habit. Dense heads of brick-red or scarlet flowers. 1-2ft. June-Aug.

***MARRUBIUM vulgare-Horehound.** A bitter aromatic herb with thick crinkled whitish hairy leaves. Often used as medicines for coughs and colds. Very hardy, thrives in dry situations. Quite ornamental among shrubbery. 1-2ft. July. Each 35c; 4\$1.

***MATRICARIA** Golden Ball. Double yellow Feverfew. Free flowering plants. Producing all season fine double yellow flowers. A fine bedding and border plant. 1ft. All summer.

MALLOW MARVELS see *Hibiscus*.

MALVA moschata. Musk Mallow. Flowers rose colored, sweet-scented. 1-2ft. June-Sept.

***MENTHA piperita.** Peppermint. Purplish flowers. Aromatic-foliage. 1-2ft. June-Sept.

***Spicata.** Spearmint. Very similar to the above except has much larger leaves and flower spikes. 1-2ft. June-Sept.

All hardy plants on this page, except where noted, Each 20c; 6\$1.; 100\$15.

HARDY HERBACEOUS PERENNIALS (Continued.)

MONARDA fistulosa. A rare and scarce specie of Oswego Tea or Bee-Balm. Lovely pinkish pale fragrant lavender flowers on long stems with dark green leaves for cutting. A stand by in old-fashioned gardens and one of the most striking plants for border or massing against a background of shrubs where they form a thick sod or mat and refuse to be crowded out by weeds or other plants. The coolness of its pale lavender flowers and refreshing "minty" fragrance appeals to everyone as the finest of all Monardas. Each 35c; 4\$1.

-Didyma Cambridge Scarlet. Brilliant crimson-scarlet flowers, otherwise same description as fistulosa. 3ft. July-Sept. Each 35c; 4\$1.

MYOSOTIS oblongata perfecta. Forget-me-not. This is the best variety of all. Remains in flower a long time, very compact. Flowers pale blue. 8ins. May-Sept.

NEPETA cataria. Catnip. Has medicinal qualities, cats are very fond of this plant and enjoy rolling among the leaves and stems which has curative qualities. Each 35c; 4\$1.

OCTOBER GOLDEN GLOW, see *Helianthus*.

PEONIES

The one flower that rivals the Rose in brilliant color and perfections of blooming. A sturdy, vigorous grower of extreme hardiness. Too well known for further description.

Best Named Sorts:

-Festiva Maxima. Very large, fragrant, the best white. Each 50c; 5\$2.

-Edulis Superba. Very large, fragrant bright pink. Each 50c; 5\$2.

-Floral Treasure. Large flower, fragrant, the best clear delicate pink. Each 50c; 5\$2.

-Felix Crousse. Large fragrant rich red flowers. Best red. Each 75c; 3\$2.

-Unnamed Separate Colors. White, red, pink or mixed. Each 35c; 3\$1. Pink and Mixed 4\$1.

PAPAYER, oriental poppy. The flowers are brightly colored, cup-shaped and borne on long graceful swaying stems. Oriental Poppies produce the largest flowers in the family. 2ft. May-June. Each 35c; 4\$1.

-Nudicaule. Iceland Poppy. A beautiful class of hardy Poppies, bearing cup-shaped flowers ranging in color from pure white, yellow and orange-scarlet. Borne on long stems. 1ft. May-Aug. Each 25c; 5\$1.

PANSIES. Viola Tricolor. Heartsease. (Steele's Mastadon Miracle Mixed) A superior mixture containing all the latest and finest types and every range of color, immensely large flowers. Strong Plants in bud and bloom. 3-20c; 6-35c; 12-65c.

-Bedding plants (for later blooming) 6-20c; 12-35c.

PARDANTHUS chinensis see Lilies, Belancanda.

***PENTSTEMON barbatus torreyi.** Beard Tongue. Tall spikes of brilliant scarlet flowers. A most charming and effective border plant. 3ft. June-Sept.

PHLOX Decussata

Are among the very showiest and most valuable of all hardy plants. They deserve a prominent position in every garden of Hardy flowers, since they thrive in most soils. Locally and in dry arid sections, if necessary to water, flood the soil never allow sprinkled water to come into contact with the foliage. 2-3ft June-Sept.

All Phlox Decussata except where noted, each 35c; 4\$1.

-Bridesmaid. Tall white flowers with large rose-crimson center.

-Eclairer. Carmine-violet-red with pink center.

-Elizabeth Campbell. salmon, changing to pink in center.

-Miss Lingard. One of the finest pure white varieties. Early.

-Mrs. Jenkins. Pure white very early.

-Pantheon. Clear deep pink, with fainter center.

-R. P. Struthers. Brilliant rosy-red, crimson center.

-Rynstroom. Deep pink.

-Thor. Rich salmon-pink with deep crimson eye.

All hardy plants on this page, except where noted, Each 20c; 6\$1.; 10\$15.

HARDY HERBACEOUS PERENNIALS (Continued.)

MIXED PHLOX Hybrids. A special strain of Hybridized Phlox in mixed colors for Kansas and similar weather conditions. This variety has been grown here for years, is fully acclimated and will thrive where many other sorts have failed. 2-3ft. June-Oct. Each 25c; 5\$1.; 100\$18.

Collection of 8 named varieties Phlox, your choice, each labelled \$2.

Collection of 10 named varieties Phlox, our choice, each labelled \$2.

PHLOX subulata. Moss or Mountain Pink. An early spring flowering type with pretty moss-like evergreen foliage, which during the flowering season in April and May is hidden under the masses of white, lilac and rose-colored flowers. An excellent plant for the border and invaluable for carpeting the ground or covering graves. Thrives in hot dry situations. 3-6ins. April-May.

***PHYSALIS Franchetii.** Chinese Lantern Plant. An ornamental variety of the Winter Cherry, which, when cut, will last all winter. Very attractive plant. 2ft. April-May.

***PHYSOSTEGIA virginiana.** False Dragonhead. Upright spreading perennials of dense growth bearing showy spikes of pretty and lasting flowers throughout the summer. Of easy culture, thriving in any situation. One we recommend. 2-3ft. May-Sept.

PLATYCODON Chinese Bell or Balloon flower. Free-flowering perennials that keep up their fine display all summer. The balloon-shaped buds are interesting and almost as attractive as the star-shaped flower. Does well everywhere. Flowers 3ins. -**grandiflorum.** Balloon Flower. An old-time favorite, forming a dense branching plant of upright habit. Flowers 3ins. across, blue or bluish white, produced at the tip of each branchlet. 1-2ft. June-Sept.

***PYRETHRUM.** Persian or Painted Daisy. The Pyrethrum are extremely popular in Europe and are gaining new admirers in this country each season. For cut-flower decoration they are very desirable, lasting longer in water than most other flowers. The colors range from snow-white to the darkest crimson. 1½-2ft. May-June.

ROSE mallows see Hibiscus.

ROSMARINUS officinalis. Rosemary. One of the oldest garden favorites, in every old-fashioned hardy garden. It is an evergreen little shrub, with aromatic foliage and pretty fragrant little flowers. Requires winter protection and a sheltered position. March-May. Each 50c; 5\$2.

RUDBECKIA laciniata. Golden Glow. A magnificent and stately plant with masses of double golden yellow flowers, extra fine for cutting. A single plant sometimes producing 75 flowers on long stems.

-purpurea. Purple coneflower. Fine purple-red, petals, cone-shaped center. 1-2ft. July-Oct. Each 25c; 5\$1.

SALVIA azurea. Blue Sage... A Rocky Mountain species, with pretty sky-blue flowers. 3-4ft. Aug-Sept. Each 35c; 4\$1.

-azurea grandiflora. Similar to the above, but of more compact habit. Flowers of a deep rich gentian-blue color. 3ft. Aug-Sept. Each 35c; 4\$1.

-gregii. Hardy scarlet sage. Masses of rich luminous, brilliant carmine flowers. 2ft. July-Oct. Each 35c; 4\$1.

-turkestanica. Extremely decorative sweet-scented foliage and showy whorls of silvery-white flowers surrounded by pale pink. 2-3ft. June-July. Each 50c; 5\$2.

-argentea. Silver-leaved Sage. Leaves large, sometimes 8ins. long lying flat on the ground. They are silvery-white and woolly. White flowers in spikes, tubular. Good for decorative purposes. 2ft. June-July. Each 50c; 5\$2.

-officinalis. Garden Sage. Generally grown as a kitchen herb but attractive as a garden flower. Long blooming season with violet blue flowers in whorls. leaves gray and downy, extremely hardy. 2ft. June-July. Each 20c; 6\$1.

Entire collection of 6 Salvias \$2.

HARDY HERBACEOUS PERENNIALS (Continued.)

SAPONARIA ocymoides. Rock Soapwort. A pretty trailing plant with white and rosy-pink flowers that completely cover the plant. Fine for borders, ground covers and low mass effect. Does well under Kansas conditions. 1ft. May-July.

SCABIOSA caucasica. Mourning Bride. Pin Cushion Flower. Handsome hardy plant and one which should be grown by everyone, beautiful soft lilac flowers. Vigorous grower. Prized for cutting. 2ft. June-Aug. Each 50c; 5\$2.

-japonica. Blue Bonnet. A variety from Japan, with clear blue flower, 1-1½ ins. in diameter. 2-3ft. June-Sept. Each 35c; 4\$1.

SEDUM Stonecrop. Live forever. Useful plant for borders, among shrubbery and all situations.

-acre. Golden Moss. Beautiful light green foliage and yellow flowers in masses, much used for edging and carpeting bare spots, especially in cemeteries. 2-4 ins. May-July. Each 35c; 4\$1.

-spectabile. Stonecrop. Live forever. Large heads of pink flowers. A fine border plant and one of the best for foliage or flower effect. 1½ ft. Aug-Sept.

-stahlianii. A species with compact, crimson foliage in autumn. 1½ ft. Aug-Sept.

-brilliant scarlet. A bright amaranth red variety of Live-forever. 1½ ft. Aug-Sept.

SHASTA DAISY see *Chrysanthemum Maximum*.

SOLIDAGO, Golden Rod. The Golden Rod is the glory of the American autumn, should be more appreciated for general planting everywhere, especially showy among shrubbery or in individual clumps also thrives in shaded and north-side situations.

***-bicolor.** Silver Rod. The only species with white or cream colored flowers. 3-4ft. July-Sept.

***-candensis.** Plumy Golden Rod. This is the most showy and handsome of the plumy varieties. The flower clusters are very large and plume-like. The leaves thin, lanceolate and finely toothed. 3-5ft. July-Oct.

***-rigida.** Spike Golden Rod. Considered by many to be the showiest and best of the Golden Rods, large heads or spikes of flowers often a foot long. Very hardy, good among shrubs, in clumps and sandy places. Also thrives in dry hot situations. 3ft. July-Oct.

***STACHYS lanata.** Woolly Woundwort. A fine bright silvery-white foliage plant. Very soft and woolly, many whorled spikes of large showy rich purplish violet flowers. Has no equal for covering graves, bordering beds and shrubbery plantings. 1ft. Aug-Sept.

STATICE latifolia. *Limonium latifolium*. Sea Lavender. Fine panicles covered with a profusion of small blue flowers. Desirable Everlasting 2ft. Aug-Sept. Each 35c; 4\$1.

-tatarica. *L. tataricum*. Flowers purplish red, attractive foliage. 1-2ft. Aug-Sept. Each 35c; 4\$1.

STOKESIA laevis cyanea. Cornflower Aster. Stokes Aster. A handsome native plant, flowers 3-4 ins. across, of a fine sky-blue. 2ft. July-Oct. Each 35c; 4\$1.

-laevis alba. A white form of the above. Each 35c; 4\$1.

SUMMER HYACINTHS see *Galtonia*.

TANACETUM vulgare. Tansy, Costmary, Bible Leaf. Often used medicinally. Foliage attractive, deep green and finely divided. Bright yellow flowers in showy flat clusters, borne on erect stems. Good in masses near shrubs or in the wild garden. The leaves were formerly used as bookmarks because of their fragrance and hence the popular name Bible Leaf. Each 35c; 4\$1.

THALICTRUM aquilegifolium. Meadow Rue. Graceful foliage, leaves resemble those of the Maidenhair Fern and masses of pure white flowers. 1-3ft. May-July.

All hardy plants on this page, except where noted, Each 20c; 6\$1.; 100\$15.

HARDY HERBACEOUS PERENNIALS (Continued.)

TRADESCANTIA virginiana. Spiderwort. Long grass-like leaves and blue or violet flowers produced all summer. 1-2ft. May-Sept.

TRITOMA pfitzeri. Kniphofia grandis. Red Hot Poker. The freest-flowering of all, orange-scarlet, shading to salmon-rose at the edge. Invaluable for cutting. 2-3ft. Ang-Sept. Each 25c; 5\$1.

TYPHA latifolia. Cat-tail. Very attractive water, low or moist soil plant, does well in dry situations. Long glossy-ribbon-like leaves, yellowish flowers in long dense dark-brownish silky spikes. 4-5ft. June-July. Each 35c; 4\$1.

-Augustifolia. Narrow-leaved Cat-tail. A scarce variety with narrow graceful arching leaves and a much smaller flower head or cat-tail than latifolia. Each 50c; 5\$2.

VALERIANA officinalis. Hardy Garden Heliotrope. Fragrant light pink flowers, foliage deeply cut. 1-2ft. June-Oct.

-coccinea. Showy heads of old-rose flowers. 1-2ft. June-Oct.

VERBASCUM olympicum. Greek Mullien. Yellow flowers. Very attractive variety. 3-5ft. May-June. Each 50c; 5\$2.

VERONICA longifolia subsessilis. Blue. This is a very beautiful herbaceous plant, long very attractive pointed flower spikes covered with blue flowers early and continues to bloom until late fall. 2ft. July-Sept. Each 25c; 5\$1.

-officinalis. Speedwell. A popular little native plant, erect stems of pale-lavender four-petalled flower spikes. Good for cutting. 1-1½ft. June-Aug.

-spicata. A dwarf variety. Spikes of blue flowers. 1ft. June-Aug.

VINCA minor. Periwinkle. Hardy Myrtle. Evergreen trailer, fine for covering bare places. Makes a handsome plant. Lilac-blue flowers. Prized for porch boxes, baskets, shady places and covering graves. April-May.

VIOLA cornuta. G. Wermig. Large blue flowers, produced in great numbers during the entire summer. Each 35c; 4\$1.

-cornuta mixed. Includes all shades of purple, blue and yellow, tufted pansies. No better assortment can be procured of spring and early summer blooming varieties.

-tricolor. Pansies, Heartsease. (Steele's Mastodon Miracle Mixed) A superior mixture containing all the latest and finest types and every range of color, immensely large flowers.

Strong plants in bud and bloom. 3-20c; 6-35c; 12-65c.

-Bedding plants (for later blooming) 6-20c; 12-35c.

VIOLETS very hardy. Owing to their fragrance and simplicity of culture, Violets have met with general favor. If planted in a shaded position out-of-doors, they will thrive and flower freely.

-Hardy English. This is the most prolific growing variety. Extremely hardy, thrives in any situation, does extra well in shaded positions, even where very dry. Violet-purple flowers on long stems, fine for bouquets, glossy deep green foliage. 8-10ins. March-May. Sept-Oct. Each 20c; 6\$1. Clumps 35c; 65c; 90c.

-Gov. Herrick. Sweet-scented, clear choice shade of blue. Each 20c; 6\$1.

-Hardy Russian. Perfectly hardy, producing in early spring, large deep purple flowers of exquisite fragrance. 8-10ins. March-May. Each 20c; 6\$1.

-cucullata. Common Violet. The best known of all native or woods violets. The heart-shaped bright green leaves and deep purple flowers on long stems are a pleasing combination, shady places required. 5-6ins. March-May. Each 20c; 6\$1.

YUCCA filamentosa. Adam's Needle. Of tropical appearance with immense, pyramidal clusters of creamy flowers. Highly recommended for city and cemetery planting. Thrives in all situations, especially desirable for dry sunny or shaded position. 4-6ft. June-July. 1yr. 35c; 4\$1; 2yr. 65c; 4\$2; 3yr. 90c; 4\$3.

-glauca (angustifolia). Beargrass. The foliage of this variety is very narrow and glaucous green. 3ft. June-July. Price same as filamentosa.

All hardy plants on this page, except where noted, Each 20c; 6\$1; 100\$15.

BORDER, SCREEN AND BACKGROUND

COMBINATIONS

HARDY HERBACEOUS PERENNIALS

Plants that live over winter from year to year. Arranged as to the growing height and in order of planting. (Explanation—standing facing the plot to be planted, the first plants in each assortment are to be planted nearest you, the first assortment in front of the second and so on back) Each assortment being a complete screen within itself of the height stated for mass planting, they begin low with first assortment, second one little higher and so on.

\$2.Special 21B. (1st row, 15ins.tall,16plants). 8 Hardy Ageratum lavender blue, 8 Pallida Queen Iris, fine purplish lavender. (Plant alternately Iris and Ageratum 12ins. apart in same row).

\$2.Special 22B. (2nd row,18ins.tall,16plants). Physostegias Pink and White. (Plant in one row 12ins.apart).

\$2.Special 23B. (3rd and 4th row,36ins.tall,16plants) 8 Asters, (Plant in row 20ins.apart) 8 Aster Tataricus, (Plant in row 20ins.apart).

\$2.Special 24B. (5th row, 4-5ft.12plants). 5 Golden Glow, 7 Boltonia. (Plant alternately golden glow and boltonia 15ins. apart in same row).

\$2. Special 25B. (6th row, 5-6ft. 12plants). Helianthus Sparcifolius (Plant 15ins.apart).

\$2.Special 26B. (7th row,7-10ft.12plants). October Golden Glow. (Plant 15ins.apart).

\$10.Special C27B. (84plants) The 6 assortments itemized. A gigantic combination of proven extremely hardy and prolific growing material. Sufficient to plant a border or the rear of a lot 15ft.by6ft.deep. A corner or triangle 15ft. in depth in widest place. With something always in bloom.

\$25.Special C28B. (252plants. 3 times as many plants as shown in Special C27B). Material to plant a space 50ft.by 6ft.

 Plants at above prices can only be supplied in combinations as shown.

**VINES, HARDY, ORNAMENTAL, EVERGREEN
DECIDUOUS, HERBACEOUS, PERENNIAL
CLIMBING AND TRAILING**

Vines are as necessary to the comfort and beauty of a home as trees and shrubs. They mature quickly and tone down the stiff, bold angles of new buildings, and give shade and flowers over verandas and trellises. They ramble over unsightly, neglected places and make them beautiful with their attractive foliage, fragrant and brilliant flowers. Vines are strong, robust growers that require little attention other than to occasionally train them.

All Hardy Vines, except where noted, Each, 1yr. 35c; 2yr. 65c; 3yr. 90c.

American Ivy. *Ampelopsis Quinquefolia*, Woodbine Virginia Creeper, Five-fingered or Five-leaved Ivy. A strong grower for trellises or Trees. Beautiful colored foliage in fall. Extremely hardy. 30-50ft.

Aristolochia siph. Dutchmans-Pipe Vine. A vigorous and rapid-growing climber. Brownish colored flowers. Perfectly hardy. 30ft.

Ampelopsis see American Ivy, Englemans Ivy, Boston or Japan Ivy.

Boston or Japan Ivy. *Ampelopsis tricuspadata*. Small deeply cut foliage with tendrils that hold tenaciously to any support. Growth very compact, symmetrical and beautiful. Thrives in poor soil, fine for brick or stone. For north and east exposures in hot sections.

Bignonia Grandiflora see Trumpet Vine.

Bitter Sweet. *Celastrus Scandens*, Wax Work. A native climber, with handsome, glossy foliage and large clusters of beautiful orange-crimson fruits, which are retained on vine all winter. Producing very showy and ornamental effect. Very hardy, thrives in sun or shade.

Bugle Vine. *Campsis radicans*. For covering unsightly places, stumps, rockwork, or wherever a showy flowering vine is desired. The flowers are large, attractive and borne profusely when the plants attain a fair size. Dark red orange throat, free blooming and very hardy. 15-20ft. Orange-red.

Bills Ivy. Improved Englemans Ivy, shorter jointed and a more tenacious climber than other species of Ivy, large five-leaved variety resembling Virginia Creeper except it will climb anything in the way of trees, trellises, wood, brick or stone.

Celastrus see Bittersweet.

Cinnamon Vine or Chinese Yam. *Discorea batatas*. Beautiful climber of rapid growth. Perfectly hardy, from China. Grows well in sun or shade in all situations. Attractive shiny heart-shaped leaves. Abundance of dainty fragrant flowers. A good Vine for all purposes indoors or out. Often growing 30ft. or more in season after established.

-Strong growing plants, Each 15c; 4-50c; 9\$1.

-Small size dormant tubers, Each 10c; 5-25c; 12-50c.

-Large size dormant tubers, Each 15c; 5-50c; 12\$1.

-Extra large dormant tubers, Each 20c; 2-35c; 6\$1.

Clematis paniculata, Star Clematis, Sweet Autumn Clematis. Strong luxuriant grower. Handsome green foliage, star flowers covers vine in sheet of fragrant white, grows well for everyone and in most any situation.

Clematis large-flowering. 2yr. 75c; 3yr. \$1.25.

-**Jackmanii.** Large purple flowers.

-**Mad. Edourd Andre.** Large crimson flowers.

-**Henryii.** Large white flowers.

Dutchmans-Pipe Vine. see *Aristolochia*.

Engelmans Ivy, *Ampelopsis Engelmani*. A variety of American Ivy or Virginia Creeper. More adapted for clinging to ordinary walls, doing well in all situations, even on south against chimneys, stone or brick walls.

VINES, HARDY (Continued.)

English or Evergreen Ivy, Hedera Helix. Unfortunately it burns in this climate in hot sunny positions, it can, however, be planted with perfect safety as a ground, wall or foundation cover on the north, in shaded positions. Evergreen, leathery, dark-green, 3-lobed leaves. Very handsome. Makes a wonderful indoor-vine, even where sun does not reach.

Fox Grape see *Vitis labrusca*.

Forsythia suspensa, Trailing Golden Bell. Handsome arching branches with dark green foliage and a wealth of yellow flowers before leaves appear in early spring, an excellent vine account of its pendulous habit of growth. May be trained admirably to a wall, trellis, arbor or porch. 8-10ft. April-May.

Honeysuckles. *Lonicera Hallena*, Halls Sweet-scented Japan. King of Vines. Favorite of strong rapid growth in any sort of soil or location. Everyone should have Honeysuckles, they make cover, shade and fragrance almost evergreen as foliage colors beautifully and remains till zero. Favorite variety, pure white flowers changing to yellow, deliciously fragrant, 10-15ft.

—**Red Coral or Trumpet.** *L. Sempervirens*. (Everblooming Honeysuckle). Flowers pretty coral-red. Grows 10-15ft. high, very free flowering and showy, useful vine, very fragrant. Fine for cut flowers.

—**Heckrotts Honeysuckle, L. Heckrotti.** One of great beauty because of its buds, which are crimson carmine and its flowers, which open golden apricot inside. The leaves are gray. The plants are not tall growing but are profuse in blooming. 5ft.

Kudzu Vine, Peuraria Thunbergiana. Jack-and-the-Bean-Stalk. Undoubtedly the most rapid growing vine in cultivation, very prolific and vigorous, often attaining a growth of 50ft. in one season from a well established root. Leaves dark green and healthy, providing a dense shade. Multitudes of hairy and twining graceful stems or vines. In the north they freeze to the ground in winter, but such rapid growth (a foot a day for 30 days) is made from the hardy root, this is no objection. Often with increased age, tops survive the winter. In the south the vines live over. Spikes of purple pea-shaped flowers resembling clusters of wisteria blossoms are produced in late season, flourishes where nothing else will in well drained soil. Highly recommended for quick, dense, shady or screen effect on arbors, pergolas, porches, fences and etc.

Lathyrus Latifolius, Perennial Sweet Pea. The everlasting Peas is a Herbaceous perennial of great beauty. Altho not fragrant as the annual sweet peas, it has more blooms on a stem, a much longer season of bloom, is more desirable for cutting and comes up more vigorous each succeeding spring without hardly any care. Strongly recommended for low fences, trellises, rockeries as a ground cover and odd corners.

Maderia Vine. Sweet Mignonette Vine. A very hardy climber, but tubers require digging and storing like potatoes, or Cannas during winter. Rapid climber, insect and disease proof, beautiful bright-green, fleshy heart-shaped leaves. When in flower very fragrant and similar to Sweet Autumn Clematis. For quick coverage plant tubers 1ft. apart. 15ft. White.

-**Strong growing plants.** Each 15c; 4-50c; 9\$1.

Small size dormant tubers. Each 10c; 5-25c; 12-50c.

Large size dormant tubers. Each 15c; 5-50c; 12\$1.

Matrimony Vine, Lycium barbarum. The Matrimony vines are wonderous growers and are useful in many adverse situations where other climbers die out. Extremely valuable for all places where a dense covering is desired. Unexcelled as a ground cover and on steep slopes and banks in difficult places. Planted at the top of high retaining walls and allowed to hang over so that the branches laden with pea-shaped purplish flowers and brilliant red berries, in abundance may be seen, they are extremely admirable. 4-10ft.

All Vines on this page, except where noted, 1yr.35c; 2yr.65c; 3yr.90c.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

VINES, HARDY (Continued.)

Moonseed Vine, Menispermum. One of our beautiful native twining vines. Leaves large, wide, three to five pointed on delicate twining stems or vines. Very useful for low trellises, fences, wild places, covering rocks or tree trunks. While thriving vigorously in dry sandy situation, it readily adapts itself to a moist, shaded wall, a situation difficult for many other vines. 8-10ft. Yellowish flowers, black fruits.

Myrtle, Vinca Minor, Periwinkle. Few plants are as popular for hanging baskets as Vinca. Tiny evergreen leaves are fresh, glossy, deep green, flowers blue, prized for cemetery planting and covering graves, thrives as a ground cover under trees, on steep banks, terraces and in shady places. 8-10ins. Blue.

Perennial Sweet Peas see *Lathyrus Latifolius*.

Smilax, S. hispida. Greenbrier, Bamboo Creeper. This plant is not the tender dainty smilax of the greenhouse, but a native vine of great hardiness belonging to the Lily family. The large thin crinkled, green shiny leaves are heart shaped. Thorny or fine prickles cover the stems like a rose. Flowers inconspicuous but its clusters of black berries are attractive. Its use is principally for rough trying situations. Very hardy. 15-30ft.

Summer Grape see *Vitis aestivalis*.

Trumpet Vine, Bignonia Grandiflora. Chinese Trumpet Vine. Puts forth a glorious display of red and orange trumpet-shaped flowers during July and Aug. The flaming blossoms are borne in clusters at the tips of the branches, each flower measuring 3-4ins. long, leaves resembles those of Wistaria. The Trumpet is a high climber by means of aerial rootlets. Well adapted for covering walls, rockwork, tree stumps and for growing as an individual specimen. Very hardy everywhere. 20-30ft. Orange-red.

Virginia Creeper see American Ivy.

Vitis Aestivalis. Summer Grape, Bunch Grape. Fruit fairly large and rather pleasant in taste. Tall grower. Rusty wool on lower surface of leaves, good for covering Pergolas, arbors, etc.

-Labrusca, Fox Grape. Strong grower and more dense in growth than others. Lower surface of leaves red-brown and hairy. Fruit large, often pleasant flavor. The most attractive of the Wild Grapes and suitable for all purposes. 15-20ft.

-Vulpina. Riverbank or Frost Grape. Rampant grower thin bright green leaves, very sweet scented flowers, small sour fruit ripening after frost, commonest of the Wild Grapes.

Woodbine see American Ivy.

Wistaria Sinensis. Chinese Wistaria. The Wistaria is one of the most decorative of vines, and for porch decoration, without too much shade it has no superior. The long, twining branches bear great sprays of foliage, while its charming flowers sway with every passing breeze in clusters of pale blue.

-Sinensis alba. Of similar habit to Chinensis, with pure white flowers.

-Magnifica. Yellow-eye Wistaria. The finest Wistaria of its color now known. The most prolific and fastest grower in our gardens of all Wistarias. Growing 30-40ft. in one season when well established. Seems to be especially adapted to Kansas and similar climatic conditions. Undoubtedly the best. Flowers very young, producing an abundance of pale lilac drooping racemes of flowers with yellow-eyes which measure 12-18ins. in length and are deliciously fragrant. 30-40ft.

All Vines on this page, except where noted, 1yr.35c; 2yr.65c; 3yr.90c.

Collection of any hardy vines, except Large Flowering Clematis, your selection, all correctly labelled. 1yr.3\$1.; 7\$2.; 18\$5.; 2yr.4\$2.; 11\$5.; 25\$10.; 3yr.4\$3.; 7\$5.; 15\$10.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

EVERBLOOMING ROSES

Roses for outside growing that bloom, are the kind we sell. We grow roses out in the open, in poor soil, without any special care. Such plants are accustomed to all weather conditions and unquestionably superior for outdoors growing over hot-house grown Roses.

When planting dig deep and fertilize well with rotted manure. Heavy compact soils must have drainage of cinders or other coarse material 2-3ft. below surface.

Note:-All our roses are graded, when dug from the field. Some are not large enough for our No. 1, 2yr. field grown grade, these are classed, No. 2's and 3's and such varieties that are available in these sizes are quoted at lower prices. These smaller sizes are all of blooming age and will bloom abundantly the first season.

Any three 75c roses \$2.; 8\$5. Any five 50c roses \$2.; 13\$5.

Any three 35c roses \$1.; 7\$2. Any six 90c roses \$5.; 12\$9.

Any five \$1.25 roses \$6.; 12\$13.

- Black Prince.** Prince Cammille de Rhoan. Dark velvety red, 90c.
Frau Karl Druschki. White American Beauty, Snow Queen. The largest pure snow white rose.\$1.25.
General Jacqueminot. Gen. Jack. Crimson scarlet. 90c.
Magna Charta. Bright rosy-pink. 90c.
Paul Neyron. Clear Pink. 90c.
Ulrich Brunner. Brilliant cherry red. 90c.
Prairie rose. Rose stigera. Pink.75c; Extra heavy 90c.
Japanese Rose. Rosa Multiflora. White clusters.75c; Extra heavy 90c.
Rosa Rugosa. Large single red, ornamental berries. No. 1, 75c; No.2,50c;No.3,35c.
Belle Poitevine, Rugosa Hybrid. Brilliant dark pink.\$1.25.
Hansa. Rugosa Hybrid. Deep red. \$1.25.
New Century. Rugosa Hybrid. Flesh pink, red center.\$1.25.
Conrad F. Meyer. Rugosa Hybrid. Silvery rose.\$1.25.
Sir Thomas Lipton. Rugosa Hybrid. Snow white.\$1.25.
White Century, Rugosa Hybrid. Pure white.\$1.25.

CLIMBING AND RAMBLER ROSES

- Cl. American Beauty.** Heads the list. Rosy crimson.90c.
Pauls Scarlet Climber. Scarlet shaded crimson.90c.
Cl. Gardenia. Hardy Marchel Niel. Rich golden yellow.90c.
Crimson Rambler. Crimson, clustered.75c.
Tausendschoen. Thousand Beauty. White and pink.90c.
Rosaria. Red Thousand Beauty. Bright red.90c.
American Pillar. Rich rosy-pink.90c.
Dr. W. Van Fleet. Flesh pink.90c.
Mrs. Robert E. Perry. A fine white. No.1,90c;No.2,65c;No.3,35c.
Cl. Kaiserin Auguste Victoria. Pure white. 90c.
Yellow Rambler. Bright yellow.90c.
Cl. Ophelia. Apricot and gold. No.2,50c;No.3 35c.
Silver Moon. Rank grower, pure white, \$1.25.
Cl. Hoosier Beauty. Dazzling red.\$1.50.
Hiawatha. Deep crimson.75c.
Dorothy Perkins. Red, white or pink.65c.
Baby Rambler. Red and rosy-pink.90c.

SHRUBS

ORNAMENTAL FLOWERING

Our shrub collection is large and merits your consideration.

Note:-The height, color of flower, time of bloom, are given thus:
3-6ft. Pink. Aug-Sept.

ALTHEA. Rose of Sharon. (*Hibiscus Syriacus*). These are very fine, hardy, free-growing, flowering shrubs, of easy cultivation and very desirable on account of their late summer blooming. Should be in every garden. Our collection comprises a great variety of colors and shades. 6-8ft. Various, July-Sept. Prices on all varieties. 1-2ft. 35c; 2-3ft. 65c; 3-4ft. 90c.

-Shrub Althea. Mixed colors.

-Amplissima. Double rosy red.

-Boule de Fue. Double red.

-Bicolor. Double white with red marks.

-Joan of Arc. Pure white, very double.

-Lady Stanley. White shaded rose, semi-double.

-Peoniflora. White with cherry red center.

-Rosea. Mixed colors.

Entire collection of 8 above named Altheas. 1-2ft. \$2.; 2-3ft. \$4.; 3-4ft. \$6.

ALMOND, Double Flowering. Small double rosy blossoms closely set on branches before leaves appear. Pink or White. 12-18ins. 65c; 18-24ins. 90c.

ARALIA pentaphylla, Five-leaved-Aralia. Shrub with long, slender branches and few spines. Fine for rocky slopes, dry situations and for general planting. Foliage bright green, shiny. Flowers green in long umbels. 3-4ft. green June, 8-10ins. 35c; 10-12ins. 65c; 12-18ins. 90c.

BLACK HAWS, see *Virburnums*.

BUTTERFLY BUSH

BUDDLEIA MAGNIFICA-SUMMER LILAC

A most beautiful shrub and one that should be in every garden. Splendid for park planting. It makes large shrubs even from small plants the first season. Single plants will often produce 50 or more flower spikes. Begins to bloom in June and continues throughout the summer until frost nips it. The flowers are produced on long graceful stems that terminate in tapering panicles of beautiful lilac-colored flowers of miniature size and borne by the hundred on flower heads frequently 10ins. long. This admirable shrub should be classed as semi-herbaceous, as it sometimes freezes back to the ground in severe winters, but comes up again from the roots. A mulch of manure, leaves or other suitable material is beneficial before heavy freezing weather sets in. You should try them, you will be delighted. 3-4ft. June-Oct. 2yr. No. 1, 90c; 2yr. No. 2, 65c.

BERBERIS thunbergi. Japanese Barberry. A great favorite for hedges, shrub groups and plantings generally in some sections. Tolerant of partial shade and city conditions. Brilliant fall color and scarlet berries. 3-4ft. Yellow. April 1yr. 35c; 2yr. 65c; 3yr. 90c.

BLACK Chokeberry, Pyrus. Upright and dense in growth beautiful in autumn when foliage turns vivid crimson. 5-6ft. White. May. 1ft. 35c; 15ins. 65c.

CATKIN Willow see *Salix*.

CALYCANTHUS, Carolina Alspice. Sweet Shrub. Strawberry scented chocolate colored flowers. 5-6ft. June. 10-12ins. 35c; 12-18ins. 65c; 18-24ins. 90c.

COTONEASTER. Very ornamental shrub from the standpoint of habit of growth, quality of foliage, Autumnal tints, and showy fruits. Spreading, shiny green leaves in summer, dark crimson in Autumn. Scarlet berries. 3-4ft. White June. 12-15ins. 35c; 18-24ins. 65c; 2-2½ft. 90c.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

SHRUBS (Continued.)

CORNUS—Flowering Dogwood

These shrubby Dogwoods are valuable for both flowering and winter effects. 4-5ft. May-July.

-Aurea. Lutea Golden-twigged. Similar to *Siberica*, except this variety has distinct yellow bark. Mostly planted for winter effect. 4-5ft. White. June.

-Florida. White Flowering. One of our finest native small trees. White flowers in early spring. Makes a wonderful showing as a general shrub and when planted in large masses. 8-10ft. White. May.

-Siberica. Red-coral. The coral-red twig variety, beautiful for winter effect. 4-5ft. White. June.

-Sanguinea. Blood-twig. Very conspicuous and ornamental in winter, when the bark is red. 4-5ft. White. June.

-Stolonifera... Red Oiser. A species with smooth slender branches which are red in winter, contrasting with white fruits. 4-5ft. White. June.

-Silky. Amomum. Upright growing, white flowers after other varieties are over, followed by blue fruit. Its dark brownish red bark makes it attractive in winter. 4-5ft. White. June.

Price on all Dogwoods, 1ft. 35c; 1½-2ft. 65c; 2-3ft. 90c

CRABS, Pyrus. Betchels Double Flowering. The flowers are fragrant and double resembling miniature roses and are borne in great quantity. 8-9ft. Pink. May. 18-24ins. 90c.

CREPE Myrtle. *Lagerstroemia Indica*. This fine new summer blooming attractive shrub has come to stay. Blooms from June to September in hottest summers, has plume like clusters of crepe flowerlets. Grows 3-5ft. tall, can be planted singly, in groups or hedge formations. While probably not as yet reliably hardy north of Kansas, it is more than worth the price for one summer's bloom. Red, pink or white. 12-18ins. 65c; 18-24ins. 90c; 2-3ft. \$1.25.

CORYLUS, American Hazelnut. Valuable for its eatable nuts. Very decorative as a lawn shrub. 5-6ft. Catkins. May. 1ft. 35c; 2ft. 65c; 3ft. 90c.

CYDONIA Japonica, Japan Quince or Fire Bush. Flower very abundant, brilliant crimson scarlet. 4-6ft. Scarlet. April. 8-10ins. 35c; 12-15ins. 65c; 15-18ins. 90c; 18-24ins. \$1.25.

DESMODIUM Bush or Pea Clover see *Lespedeza*.

DEUTZIA. Showy Japanese shrub of the highest ornamental merit, and adapted to all soils. Their clean foliage, upright, dense growth, free flowering nature, renders them especially valuable. 3-4ft. White. Rose. May-June. 12-18ins. 35c; 18-24ins. 65c; 2-3ft. 90c.

ELEAGNUS angustifolia. Russian Olive. A large shrub with attractive long narrow silvery green foliage, sweet yellow, very fragrant flowers in abundance followed by yellow fruit. Flowers spicy, prized for bouquets. 10-12ft. Yellow. June. 1ft. 35c; 2ft. 65c; 2½-3ft. 90c; 3-4ft. \$1.25.

ELDER see *Sambucus*.

EUONYMUS American, Strawberry Bush. Very ornamental in the autumn and winter when loaded with scarlet seed-pods, from which the orange colored berries hang on slender threads. 3-4ft. Fall rich colors. 1ft. 35c; 2ft. 65c; 2½-3ft. 90c.

FIREBUSH see *Cydonia*.

FORSYTHIA, Golden Bells. No lawn is complete without the "Golden Bells," that familiar shrub that greets the spring with its golden shower of star-like flowers. When the flowers are done the leaves appear and their lustrous deep green is exceedingly ornamental. The flowers of all varieties are similar. 4-6ft. Yellow. March-April. 12-18ins. 35c; 18-24ins. 65c; 2-3ft. 90c.

GOAT Willow see *Salix*.

HAMAMELIS virginia. Witch Hazel. A tall shrub, bright colored foliage in fall. 6-8ft. yellow, Oct. 12-18ins. 35c; 18-24ins. 65c.

HIBISCUS Syriacus see *Althea*.

SHRUBS (Continued.)

HYDRANGEA Aborescens. The large panicles of bloom appear in mid-season, one of the most beautiful hardy flowering shrubs. In hot dry sections does best in rather shaded positions. 3-4ft. White,blush-pink. Aug-Sept. 1ft.35c;1½-2ft.65c;2-3ft.90c.

-Paniculata Grandiflora. Large flowering type, very beautiful. 1ft.35c;1½-2ft.65c;2-3ft.90c.

HAZELNUTS see *Corylus*.

HONEYSUCKLES, Bush varieties see *Lonicera*.

HONEYSUCKLES, Climbing see *Vines, Hardy*.

HYPERICUM Prolificum. Gold Flower, St. Johnswort. Free flowering thrifty growing shrub that will thrive in all situations. Foliage and flowers insect free. Masses of attractive bronze or golden yellow flowers on long stems during summer and fall. Good for cutting. A very desirable low growing shrub that should be more generally planted. 2-3ft.Bronze or gold.July-Oct. 12-18ins.35c;18-24ins.65c;2-3ft.90c.

HUCKLEBERRY, Dwarf Summer. A well known native shrub with small racemes of Lily-of-the Valley like flowers. Black fruits edible in Aug-Sept. Good in shaded places for fall and winter effect. 1-2ft.White-pink.June. 1ft.35c;18ins.65c;2ft.90c.

LIGUSTRUM—Privet

A group of ornamental shrubs, including, besides the California Privet, some of the most desirable plants. The Privets are not particular as to soil and they grow rapidly in open places or beneath the shade of trees. Planted singly, in shrubbery borders and masses, their good qualities are always appreciated, as well as in the hedges, where their use is best known. They are seldom attacked by insects, withstand shearing and can be kept at any height or clipped into artificial shapes.

-California. The half-evergreen, generally useful shrubs most widely known as a hedge plant. Valued also for tall screens and planting. Not reliably hardy north of Kansas.

	Each	Per 10	Per 100	Per 1000
1yr.6-12ins	15c	75c	\$ 5.	\$30.
1yr.12-18ins.	20c	\$1.50	\$10.	\$60.
2yr.18-24ins.	25c	\$2.00	\$15.	\$90.
3yr.2-3ft	50c	\$2.50	\$20.	

-Ibodium. Hardy half-evergreen. New. A cross between Ibota and California Privet, combining the hardiness of the former variety with the excellent foliage of the latter. Unexcelled for hedging purposes under all conditions. 6-8ft.

	Each	10	100
1yr.10-15ins.	20c	\$1.50	\$10.
1yr.12-18ins.	25c	\$2.	\$15.
2yr.18-24ins.	35c	\$2.50	\$20.
3yr.2-3ft.	50c	\$3.	\$25.

-Amur Privet. *Ligustrum Amurense.* Hardy Type. Somewhat similar to the California Privet, but hardier. Adapted for hedges in cold and exposed places. 6-8ft.

	Each	10	100
1yr.6-12ins.	20c	\$1.50	\$10.
1yr.12-18ins.	25c	\$2.	\$15.
2yr.18-24ins.	35c	\$2.50	\$20.
3yr.2-3ft.	50c	\$3.	\$25.
3yr.4-5ft.	90c	\$7.50	\$65.

-Ibota. *Ligustrum Ibota.* Japanese Privet. Upright, with white flowers and blue-black berries. Unexcelled for hedges and general decorative purposes. Autumn foliage dark red. 6-8ft.

	Each	10	100
1yr.6-12ins.	20c	\$1.50	\$10.
1yr.12-18ins.	25c	\$2.	\$15.
2yr.18-24ins.	35c	\$2.50	\$20.
3yr.2-3ft	50c	\$3.	\$25.
3yr.4-5ft.	90c	\$7.50	\$65.

SHRUBS (Continued.)

LONICERA—Bush Honeysuckles

The fragrant flowers, showy fruits, and fine foliage possessed by this group have pushed them to the forefront of ornamental shrubs. They are hardy, transplant easily, and are adapted to almost any shrubbery grouping. See "Vines" for the trailing varieties of this species.

Prices on all Bush Honeysuckles, 1-1½ft.35c; 1½-2ft.65c; 2-3ft.90c; Extra heavy bushy 3yr.3-4ft.\$1.25.

-Winter. *Lonicera Fragrantissima*. March and April. Delightfully fragrant white flowers that come with the first breath of spring. Scarlet fruits. A broad, many-branched shrub with excellent foliage. 5-8ft.

-Marrow's. *Lonicera Marrowi*. An open bush with crooked branches. Its red berries are especially ornamental in August and last a long time. 5-6ft.

-Tartarian. *Lonicera tartarica*. The favorite, old-fashioned Bush Honeysuckle with slender upright branches. Pink flowers. 5-6ft. May.

-White Tartarian. Var. *Alba*. May. A white-flowering form of the above.

-Red Tartarian. *Lonicera Tartarian rubra*. A red flowering form of the above.

-Bride. *Lonicera grandiflora*. Probably the largest flowering of all the Bush Honeysuckles. 5-6ft. Pink. May.

-White Bell. *Bella albid*a. Large flowering, fragrant white variety. 6-8ft. White. May.

Entire collection of 7 above named Honeysuckles. 1-1½ft.\$2.; 1½-2ft.\$4.; 2-3ft.\$6.; 3-4ft.\$8.

LILACS see *Syringa*.

LESPEDESA. *Desmodium*. Bicolor, graceful slender branches with pretty, oval clover-like leaves and a profusion of pea-shaped flowers. Thrives in hot situations. 4-5ft. White-pinkish. Aug-Sept. 1ft.35c; 1-2ft.65c; 2-3ft.90c.

-Sieboldi. A dwarf variety. Rosy-purple or reddish violet flowers in profuse pendulous bunches. Very free flowering. 3ft. Red. Aug.-Sept. 1ft.35c; 1-2ft.65c; 2-3ft.90c.

MOCK ORANGES. *Philadelphus*. No grounds are quite complete without a Mock Orange. An old favorite, fragrant white flowers, vigorous hardy erect grower. 6-8ft. White. May. 1-1½ft. 35c; 1½-2ft.65c; 2-3ft.90c.

PUSSY WILLOW see *Salix*.

PHILADELPHUS see Mock Orange.

RHUS—Sumacs

The Sumacs as a family are among the most showy of our Autumn color plants. Most varieties are best adapted for clumps and background planting in shrubbery borders and in the productions of natural effects.

Prices on all Sumacs, 1-2ft.35c; 2-3ft.65c; 3-4ft.90c; 4-5ft.\$1.25.

-Fragrant. *Rhus Aromatic*. Attractive foliage that emits an aromatic odor when bruised. Conspicuous yellow flowers in Spring. Good as a cover plant and general planting. 3-5ft. Greenish-white. April.

-Smooth. *Rhus Glabra*. Especially useful in producing natural effect as it is very effective in autumn with its crimson seeds and foliage. 10-12ft. Red. Autumn.

-Dwarft Cut-Leaved. *Rhus Glabra Lacinata*. A most ornamental shrub with leaflets deeply cut and fern-like. In autumn it turns a beautiful crimson with crimson fruits in bold spikes. An elegant plant for grouping, does well in all situations. 3-4ft. Crimson. Autumn.

-Shining... *Rhus Copallina*. Valued for its glossy shining deep green foliage which turns a rich crimson in Autumn. Useful in masses and with other shrubs and succeeds well in dry soil. 4-5ft. Yellow green. July-Aug.

RUSSIAN OLIVE see *Eleagnus*.

SHRUBS (Continued.)

SALIX—Shrub Willow

(For Tree Willows see Trees)

A heretofore much neglected, very desirable, ornamental shrub. Extremely hard, does not require water side planting, grows well anywhere with little care. The only requirement is,—cutting back to ground in spring after blooming or leaving out of one-half old growth the other half the following spring and so on each year. (The heights given, are based on this method of handling). Nothing is more desirable for quick results nor as attractive for colored bark, catkin and leaf effects. Prices on all shrub Willows, 1-2ft.35c; 2-3ft.65c; 3-4ft.90c; Extra heavy bushy, 3-4ft.\$1.25.

-Pussy. S.Capria. Catkin or Goat Willow. The pussy willows are the most interesting and beautiful shrub for general planting. The fur-like catkins in early spring, good summer foliage and dark maroon-red bark and buds during winter, combines all that can be desired in a shrub for useful and decorative purposes. 3-7ft.Silvery-white. Earliest spring.

-Pussy. S.Discolor. Pussy-Catkin Willow. Similar in every way to above except that the buds, bark and catkins are of a slightly lighter or more pinkish color. Both kinds are very desirable and can be forced into "bloom" by anyone readily by cutting the branches with large buds anytime after freezing, place in water and set in a warm place near radiator or stove, when catkins will come out immediately. They are fine in this way as winter bouquets, which process can be made to displace the necessary spring pruning.

-Prairie. S.Humilis. For dry soils, porous or sandy situations, this little dwarf shrub growing 2-4ft.has merit, leaves long, very narrow pointed, growing lily-fashioned around the reddish-maroon bark, colored stems.

-Dwarf Willow. Salix specie. Very similar in every way to above except its bright bark. Desirable for color effect.

-Rosemary. S.Incana. A beautiful shrub with narrow, densely covered dark foliage. leaves green above and grey white beneath and brownish colored slender stems. 3-4ft.

-Laurel-leaved. S.Pentandra. Upright and spreading in growth, with chestnut-colored bark and large shining, dark green foliage. Good for screens and quick foliage effects. 5-7ft.

-Brittle Golden. S.Aurea Fragilis. A rapid growing spreading variety with bright yellow bark and long narrow light greenish-gray leaves. Very desirable for quick effects in colored barks, screens, fencing and background planting. 5-8ft.

-Ural. S.Uralensis. Siberian Hedgewood. In growth similar to privet except branches are more horizontal. Tiny-leaves thickly set on slender stiff branches with deep red bark, attractive as a low growing shrub, very hardy. 2-3ft.color effects.

SIBERIAN Pea Shrub. Caragana. A showy erect shrub, bearing a profusion of pretty peashaped flowers. 6-8ft.Yellow.May-June. 1-2ft.65c; 2-3ft.90c.

SNOWBALL—Viburnum

Attractive throughout the entire season, producing great masses of bloom during the spring and summer. Thrives in any good soil, sunny position preferred.

Prices on all Snowballs. 8-10ins.35c; 10-15ins.65c; 15-18ins.90c; 18-24ins.\$1.25.

-Common. Opulus Sterile. An old and popular favorite. Handsome pure white flowers produced in great globular clusters. Grows 6-8ft.

-Arrow Wood. Dentatum. Bushy shrub upright growth, creamy white flowers in flat topped clusters, beautiful red and purple foliage in fall. 8-10ft.

-Japanese. Japonicum. Pure white flowers, clusters 3-4ins. across, beautiful foliage. 6-8ft. June. 1-2ft.65c; 2-3ft.90c.

-Maple-leaved. V. Acerifolium. Good for low ground, shady places and under trees. Red foliage flowers showy, in flat clusters or heads. Fruit large, almost black. Very attractive. 4-5ft.Yellow-white.May-June.

-Black Haw. V. Prunifolium. A very attractive native large shrub in shape, foliage, spring flower and black fall and winter fruits. 8-10ft.White.May-June.

SHRUBS (Continued.)

SNOWBERRY—Symphoricarpos

Hardy shrubs suited for sunny, shaded, or rather dry and barren locations where little else will thrive as well as for more favored spots. Splendid too, for planting on banks to prevent erosion. In autumn the branches arch with showy white or coral-red berries.

Prices on all Snowberrys, 1-1½ft 35c; 1½-2ft. 65c; 2-3ft. 90c.

-**White.** 3-5ft. tall. Spreading branches, abundance of white flowers followed by white berries remaining during the winter.

-**Red.** Coral Berry, Indian Currant. Flowers in summer, followed by great quantity of red or purple berries, which cling to the branches throughout the winter. Very showy when properly spring pruned, valuable for any situation, but adapted to poor soil. 2-3ft. Red berries, Fall-Winter.

SPIRAEA

BRIDAL WREATH, MEADOW SWEET

There is truly a Spirea for "Every Place and Purpose." These indispensable shrubs vary in size, character and time of blooming. In this group are some of the most popular. The Summer-flowering varieties brighten the garden when few other shrubs are in bloom. Most all varieties do best in fertile soil and sunny exposures. All varieties bloom with the greatest freedom making them indispensable for ornamental purposes. Most all species are hardy and easy to grow in any soil or situation, generally used for foundation planting, groups, screens, border, ornamental hedges, etc.

Prices on all Spiraea, except where noted, 1yr. 1-2ft. 35c; 2yr. 2-3ft. 65c; 3yr. 3-4ft. 90c; Extra heavy clumps 4-5ft. \$1.25.

-**Van Houtte's.** Spiraea Van Houttei. This spiraea is planted more largely than all others combined. Among the very finest of flowering shrubs and the most charming and popular Spiraea. It has pure white flowers an inch in diameter, in clusters or panicles. The profusion of bloom weighs the slender branches down and covers the bush with a canopy of white. The plant is remarkably vigorous and hardy. Excellent as a single plant or for grouping and foundation planting. 5-6ft. White. May.

-**Double Bridal Wreath.** S. Prunifolia. This old-fashioned spiraea is becoming unpopular account of its open straggly growth. 6-8ft. White. May.

-**Reeves.** S. Reevesiana. Similar to the favorite Van Houttei except that it is a little more dense in growth and its leaves assume autumnal tints. 5-6ft. White. May-June.

-**Golden.** Gold Leaved Ninebark. One of the best of our yellow shrubs. Holds its color all summer. Late bloomer. 5-6ft. White June.

-**Dwarf.** Illinois Ninebark. A specie resembling Reevesiana, but with more beautiful foliage and denser in growth, with exceedingly attractive autumnal tints. 4-5ft. White. June. 12-18ins. 65c; 18-24ins. 90c.

SUMMER FLOWERING VARIETIES

Prices on all summer flowering or Everblooming Spiraea, 1yr. 8-10ins. 35c; 2yr. 10-15ins. 65c; 3yr. 15-18ins. 90c.

-**Crimson Everblooming.** Anthony Waterer. Grows 2ft. high. Handsome foliage and beautiful bright crimson flowers throughout the summer. One of the best red dwarf everblooming border spiraeas.

-**Frobella.** Dwarf and similar to Anthony Waterer being a trifle taller with broader leaves, bright crimson bloomer during July and August. A variety which is multiplying itself in favor each season, a good strong grower and extremely hardy.

White Japanese. Celosa Alba. Similar to A. Waterer. Blooms all summer.

-**Pink Japanese.** Celosa Rubra. Same as above except flowers are rose.

-**Red Japanese.** Walluffi. Flowers redder than the Pink Japanese.

SYRINGA—LILACS

You can have Lilacs almost anywhere you may live. They grow in city, in suburbs and in the country. They are adapted to large lawns and can be depended upon each May for a profusion of colored fragrant panicles of bloom that you, as a flower lover, cannot help but revel in.

Prices on all Lilacs, 1yr.10-15ins.35c; 2yr.15-18ins.65c; 3yr.18-24 ins.90c; 2-3ft.\$1.25; 4yr.blooming clumps \$1.75.

-Common Purple.Syringa vulgaris. The well-known old-fashioned Lilacs. Flowers are remarkably fragrant, varying from Pale Wistaria Blue to Lavender. 6-8ft.April-May.

-Common White.Vul. Alba. The familiar white flowered variety. Prices same as common Lilac above.

-Hungaria.S.Josikaea. A distinct late blooming type. Deep purple buds arranged in loose panicles, opening into light-violet colored flowers. 6-8ft. April-May.

-Persian.S.Persica. A fine old variety of dwarf, bushy habit, with very fragrant purple flowers in loose panicles. One of the most desirable species. Blooms in late spring. 6-8ft.May.

-Chinese.S.Chinensis. Arching branches and large, loose, deep lilac flower-plumes shading through purple. Distinct, narrow leaves. 6-8ft. May.

-Weaver Garden's Seedling Lilacs.Something new and desirable in unnamed Lilacs. Grown from seed of beautiful Hybrid sorts. These Lilacs are earlier in blooming than any other variety. The large heavy clumps, priced at \$1.75, each bloomed beautifully last spring and a large percent were fine doubles. You will make no mistake in buying Weaver Gardens Early Blooming Seedling Lilacs.

-Hybrid French.Named, early flowering varieties. Named Hybrid Lilacs are different from the Common Lilac. The flower clusters are usually larger and more fragrant and ordinarily they bloom when plants are younger.

-Charles X.Single purplish red.

-Ludwig Spaeth.Very dark purplish-crimson single.

-Mad.Lemoine.Extra fine double white.

-Marie Legraye.Single white.

-Michael Buchner.Double pale blue.

-Pres. Grevy.Double soft blue.

-Lilac Chaste Shrub.Vitex Agnus Castus. A new, rare plant from west Asia. Lilac-blue flower spikes 7ins. long in clusters of three. Has aromatic odor. Attractive grayish-green foliage. SUMMER LILAC see Buddleia.

FRESH CUT FLOWERS

Flowers in variety that make wonderful sprays, bouquets, etc.

SPRAYS, for all occasions, \$1.50, \$2., \$2.50, \$3.

BOUQUETS, straight varieties or assorted flowers \$1. up.

The following can be supplied in abundance during blooming season.

Spiraeas	Iris	Carnations
Peonies	Gladiolus	Lilies

Everlastings	Golden Rods	Honeysuckles

WEEK END BOUQUET BOXES—To reach you Saturdays.

Each \$1.50, per month \$5.

Satisfaction guaranteed.

SAMBUCUS—ELDERS

Vigorous, tall growing shrubs, suitable for border or screen planting, also most desirable in the wild garden for attracting song birds, as our feathered friends are especially fond of its fruits. Its good foliage also makes this shrub a splendid unit for high border. The golden and cut-leaf types are very desirable singly, or for border, screen and clump planting.

Prices on all Sambucus. 10-12ins.35c;12-18ins.65c;18-24ins.90c;Heavy3-4ft \$1.25.

-Canadensis.Common American Elder. Vigorous, large growing shrub adapted to border or planting for wild effect. Its berries are very attractive to the song birds. 5-7ft.White.May.

-Cut-leaf-Fern-Leaf.Similar to the above but with finely cut foliage, rivaling the fern in its delicacy. 5-7ft.White.May.

-Golden-leaf.Same type as the American Elder, but foliage of a lovely golden color retained throughout the season. 5-7ft.White.May.

-Racemosa.Red-berried Elder. A pyramidal shrub, with large deep green foliage, and showy red fruit in the autumn. Good among other shrubs or clumps alone. 5-7ft.White.May.

TAMARIX—SALT CEDARS

Very hardy shrub of strong growth, light green feathery foliage, flowers delicate and fringing, grows anywhere. Very beautiful and attractive shrub the year around and admired by everyone. For best results, in spring cut back to ground, one-half of old wood, the other half the next spring and so on.

Prices on all Tamarix, 18-24ins.35c;2-3ft.65c;3-4ft.90c;Extra heavy 3yr.\$1.25.

-African.T.Africana. Strong, slender, upright growth with panicles of feathery soft pink flowers in April and May. 6-8ft.

-Chinese.T.Chinensis. Delicate pink or white flowers in slender-panicked racemes. An exceedingly pretty sort. 6-8ft.May-June.

-Kashgar.T.Hispida. Blooms when few other shrubs are in flower and its feathery delicate soft pink sprays of blossoms are exceedingly attractive. Almost an everblooming. 6-8ft. June-Sept.

-Amur.T.Pentandra. A new variety raised from T.Hispida. More vigorous and not so compact. In July the branches are covered on the half of their length with numerous inflorescences of large flowers of a nice bright carmine. 6-8ft.July.

Entire collection of all 4 above named Tamarix, 18-24ins.\$1.;2-3ft.\$2.;3-4ft.\$3.; Heavy 3yr.\$4.

VITEX.Agnus Castus.Chaste Shrub. A new, rare plant from west Asia. Lilac-blue flower spikes 7ins.long in clusters of three. Has aromatic odor. Attractive grayish-green foliage. 8-10ft.Lilac-blue.July-Sept. 10-12ins.35c;12-18ins.65c;18-24ins.90c.

WEIGELA Rosea.Moderately dwarf, flowers a very light pleasing rose or pink. Husky, vigorous growing shrub of spreading habit. Among the showiest of shrubs for borders or specimens. The long branches are literally clothed with the pretty bloom and makes a pleasing combination when grouped with other shrubs. 5-6ft.Pink,June. 12-18ins.35c;18-24ins.65c;2-3ft.90c.

YUCCA filamentosa.Hardy Evergreen. Of tropical appearance, immense pyramidal clusters of creamy flowers, is valuable for planting among other shrubs, singly or in clumps and is highly recommended for city and cemetery planting in all situations, especially desirable for dry sunny or shaded positions. 1yr.35c; 2yr.65c;3yr.90c. Extra heavy specimens \$1.25.

ORDERS AMOUNTING TO \$1.00 DELIVERED PREPAID.

PLANTS—ROOTS, HERBS, GARDEN

ASPARAGUS ROOTS

One of the earliest and most delicious spring vegetables, easily grown and should be in every garden. For hand cultivation plant roots 1ft. apart in rows 2ft. apart, throw out dirt spade deep, planting crowns in furrow, covering 2-3ins. deep until growth starts. When ground can be worked level by cultivation. If available stable manure can be applied on surface. Do not cut any "shoots" until second spring. Asparagus growing for market has been a specialty with the Weaver Gardens for 18 years. Our oldest planting of 2½ acres is now 19 years old. No finer Table or Market "Grass" is produced than this bed of Weavers Giant Palmetto which sort we have continuously improved by seed selection.

Weavers Giant Palmetto. Grown from our own specially selected seed. No better roots are produced and no better variety is grown.

Extra Large 1yr. heavy selected crowns. 25-50c; 100\$1.75; 1000\$15.

Shipped charges collect 1000\$12.; 10,000\$90.

Giant Argenteuil. Same price as Palmetto.

Washington. A new sort bred by the U. S. Dept. of Agri. Grown from pedigreed seed. 25\$1.; 100\$3.

Mary Washington. A later introduction. Grown from pedigreed seed, costing \$20. per pound. 25\$1.; 100\$3.

Asparagus Seed. New 1924 crop. Weavers Giant Palmetto. Lb. \$2.50 Postpaid.

MISCELLANEOUS ROOTS, ETC.

Artichoke, Mammoth French White Jerusalem. (*Helianthus tuberosa*). A new variety of edible tuber artichokes, found and developed by Joseph Sibley of Pa. Is recommended as an admirable substitute for potatoes and many other purposes. Being drouth resistant and disease free, this improved variety seems worthy of attention as yields close to 1000 bushels per acre have been recorded. All stock and poultry eat them readily. The plant growing 6-8ft. high, are very hardy and quite ornamental when in bloom, being recommended for quick dense screen or background planting. 2-15c; 3-25c; 20\$1.; Peck\$5.

Chives (*Allium schoenoprasum*). Leaves used as a salad and for flavoring soups. Each 35c; 4\$1.

Horehound (*Marrubium vulgare*) A bitter aromatic herb. Often used as medicines for coughs and colds. Each 35c; 4\$1.

HORSE RADISH ROOTS

Horse Radish, Maliner Kren. A greatly improved variety, over common sorts. Produces more vigorous growing plants and larger finer grained roots.

-Root sets, 4-6ins. long. 3-10c; 9-25c; 100\$2.; 1000\$12.

-Crown Sets, 3-10c; 9-25c; 100\$2.50; 1000\$16.

Lavender True. (*Lavandula officinalis*) For scenting oil and distilled water. Each 35c; 4\$1.

Mint. (*Mentha piperita*) Aromatic foliage, used in sauces and flavoring drinks. Each 20c; 6\$1.

Rosemary. (*Rosmarinus officinalis*). Yields aromatic oil and water. Each 50c; 5\$2.

GARDEN PLANTS (Continued.)

RHUBARB—PIE PLANT—WINE PLANT

A necessity in every garden, hardy everywhere, except extreme south. Grows from thick fleshy roots or crowns. Should be planted with crowns just below surface. The best Rhubarb or Hybrid sorts are propagated by root divisions. Our 1 and 2yr. Mammoth Victoria are seedling roots and not always true to type but of excellent and extremely hardy everywhere. Keep all seed stalks broken out of any Rhubarb, otherwise, plant will exhaust itself if allowed to mature seed and die.

-Mammoth Victoria. An old favorite variety of good quality, stands more neglect than improved sorts, but varies some in color and growth.

-Large 1yr. $\frac{3}{8}$ in. and up in diameter. 4-25c;20\$1.;100\$4.

-Small 1yr. Under $\frac{3}{8}$ in.diameter. 50\$1.;100\$1.75.

-Large 2yr. Whole roots or crowns. $1\frac{1}{2}$ ins.and up in diameter. Each15c;12\$1.;100\$7.50.

-Weavers Giant Crimson. The best deep red Rhubarb in cultivation. Propagated from divisions for 19 years until it practically never throws seed stalks. This is the same sort that we grow for the Wichita market and have sold for years throughout our home territory.

-Large 3yr.Root Divisions. Each 20c;8\$1.;12\$1.50;100\$10.

-Planting Stock, Small 3yr. Divisions, for commercial or large growers. 100\$7.;1000\$65.

Sage Garden,(*Salvia officinalis*). A culinary herb, also used in medicine. Each20c;6\$1.

Spearmint, (*mentha spicata*) Aromatic herb used in falvoring. Each20c;6\$1.

Tansy Herb. (*Tanacetum vulgare*). Often used medicinally. Each35c;4\$1.

STRAWBERRY PLANTS

Everyone likes strawberries and every family having a garden should have enough plants to furnish them with Strawberries throughout the spring and fall. The new Everbearing kinds are proving very successful and it is now possible to have a full crop of berries the same year you plant them. Strawberry plants is one of our specialties. Our plants have strong fibrous roots and will grow for you. We do not grow a large list of varietis but what we do grow is adapted for our trade territory.

Early Varieties. Improved Klondyke, Excelsior, Lady Thompson. Medium or Main Crop. Aroma, Dunlap.

Prices on the above Strawberry Plants. 25-35c;100\$1.;1000\$9.

Everbearing Varieties. Progressive and Champion Everbearing. 25-50c;100\$2.;1000\$15.

SWEET POTATO PLANTS

We ship Sweet Potato Plants that live and grow. Plants grown from true seed, treated according to standard formula for disease fungi. In separate varieties as follows:—Yellow Jersey, Nancy Halls, Porto Ricans, Triumphs. Strong fibrous rooted plants. 25-35c;100\$1.;300\$2.;1000\$6.50. Black Spanish, Red Nansemond. 50\$1.;300\$3.;1000\$9.

VEGETABLE PLANTS

\$1. Vegetable Plant Special 118V. (125 plants). 50 Cabbage, 50 Tomatoes, 10 Sweet Peppers, 5 Egg Plant.

WEAVER GARDENS ARE GROWERS OF GOOD PLANTS—

In growing Vegetables or Flowers the right start is the right kind of plants, good strong plants from fertile seed delivered to you in live growing condition is your first assurance of a paying crop of good Vegetables and beautiful decorative flowers

Strong Sash grown, vegetable plants are a specialty with Weaver Gardens. All grown from the very best strains of seed. No better varieties are produced. All plants have been transplanted once, or more times and have strong fibrous roots in abundance and are not the cheap spindly plants like you can buy from so many sources at much less prices.

Our plants come to you fresh and green, roots packed in damp moss, in **LIVE GROWING CONDITION** to be planted at once, or held ordinarily for several days if desired.

Our Price includes Packing Charges and all mail or express charges necessary to deliver prepaid.—THIS IS A BIG SAVING TO YOU.

Note:—Quantity prices do not apply on an assortment of different plants only where noted.

Cabbage Plants. All cabbage plants are well hardened, and will stand as much frost as any so-called Frost Proof plants and are superior in every way, better leaf, better stems, better roots and more vigorous and most important of all, free from plant lice (Aphis) and disease. Varieties as follows. Early Jersey Wakefield, Copenhagen Market, Large Wakefield or Charleston, Surehead, All season, Dwarf Flat Dutch. 12-15c; 50\$1.; 1000\$6.

Vinca, Periwinkle, Flowering Vinca. Rosea, Rosea Alba. 2-25c; 12\$1.

Zinnia. Giant Dahlia-flowered, asst'd colors. 2-15c; 12-50c.

Collection of any annual Flower plants, priced at 35c a dozen, your selection (3 or more of a kind) not labelled, 25\$1.; 100\$3.

Collection of any annual Flower plant, prices at 50c a dozen, your selection (2 or more of a kind) not labelled, 20\$1.; 100\$3.50.

Collection of any annual Flower Plants, priced at \$1. a dozen, your selection, not labelled, 10\$1.; 25\$2.

Collection of 10 or more varieties, Annual Flower Plant, our selection, not labelled, 50\$1.

EVERLASTING OR "IMMORTElLES" FLOWER PLANTS

Ammobium. Everlasting, Pearly white. 2-15c; 12-50c.

Acroclinum. Immortelles. White, pink. 3-15c; 12-35c.

Artemisia frigida see Hardy Perennials.

Baby's Breath see *Gypsophila*, Hardy Perennials.

Celosia Chrysantheflora see Plants, Annual flowering.

Echinops, Globe Flower see Hardy Perennials.

Eryngium planum see Hardy Perennials.

Globe Amaranth, *Gomphrena Globosa*, Bachelor Button, Pink, purple-red, white. 2-15c; 12-50c.

Liatris spicata, Kansas Gay Feather see Hardy Perennials.

Rhodanthe, Everlasting. Silvery satin. 3-15c; 12-35c.

Solidage, Golden Rod see Hardy Perennials.

Strawflowers, *Helichrysum*, Everlasting flowers. Mixed containing all colors. 2-15c; 12-50c.

Statice, Sea Lavender, see Hardy Perennials.

Collection of 1 each of the 5 above named, priced, Annual Everlasting, 35c; 6 each \$1.

Annual plants on this page, except where noted, 3-15c; 12-35c; 100\$2.

FOLIAGE ORNAMENTAL PLANTS

Agrostemma coronaria. Silvery, see Hardy Perennials.
Artemisia all kinds see Hardy Perennials.
Amaranthus, Princess Feather, Love-Lies-Bleeding. 3-15c; 12-35c.
-Josephs Coat. Tricolor Splendens. Each 15c; 2-25c; 12\$1.
Castor Bean. *Ricinus*, Mammoth Giant. Mixed. 2-15c; 12-50c.
Seeds pkt. 25c; 5\$1.
Coleus. Best of the foliages, new brilliant vivid colors. Each 20c; 12-\$1.50.
-Golden Bedder, Trailing Queen, Glory of Autumn, Standard varieties. 2-25c; 12\$1.
Dusty Miller, *Centaurea Gymnocarpa*. Silvery. 2-15c; 12-50c.
Inula Glandulosa see Hardy Perennials.
Kochi, Summer Cypress Mexican Fire Bush. 3-15c; 12-35c.
Plume Poppy, *Bocconia cordata* see Hardy Perennials.
Salvia Argentea see Hardy Perennials.
Stachys lanata, Woolly-woundwort see Hardy Perennials.
Yucca, Adams Needle see Hardy perennials.

Collection of 1 each of the 7 above Annual Foliage, except *Coleus*, 35c; 4 each \$1.; 12 each \$3.

Collection of any Annual Foliage, except *Coleus*, your selections, not labelled, 3 or more kinds, 5-25c; 12-50c; 30\$1.

VINES ANNUAL CLIMBING AND TRAILING

All Annual Vines, except where noted, Each 15c; 4-50c; 9\$1.

Australian Pea Vine, *Dolichos lignosus*, 6-8ft. Rosy purple.
Balsam Apple and Pear, *Momordica*. 10ft. yellow, red fruits.
Balloon Vine, *Card. halif.*, 6ft. White, Green puffs.

Black-eyed-susan, *Thunbergia*. Prized for baskets, boxes. 4-5ft. Yellow.

Canary Bird Vine, *Tropaeolum*. 10-20ft. Canary yellow.
Cardinal Climber, *Ipomaea quamoclit*. 15-20ft. Scarlet.
Cypress Vine, *Ipomoea quamococ*. 15ft. Scarlet, White.

Cobea Scandens. Cathedral Bells. 30ft. purplish-lilac.

Japanese Hop, *Humulus Japonicus*. 10-15ft. variegated.

Maderia Vine, Mignonette. Rapid climber, insect and disease proof, beautiful bright green fleshy heart-shaped leaves. As fragrant and very similar when in flower to Sweet Autumn Clematis. Very hardy but tubers require taking up in fall and storing like Cannas. For quick coverage plant tubers 1ft. apart. 15ft. white.

-Strong growing plants. Each 15c; 4-50c; 9\$1.
-Small size dormant tubers. Each 10c; 5-25c; 12-50c.
-Large size dormant tubers. Each 15c; 5-50c; 12\$1.
-Extra large dormant tubers. Each 20c; 2-35c; 6\$1.

Moonvine, Moon Flower, *Ipomaea Grandiflora*. Vigorous grower. 30-40ft. White. Each 25c; 5\$1.

Scarlet Runner Beans, *Phaseolus coccineus*. (Beans edible). 10-12ft. Brilliant scarlet. An extra good quick growing Vine for color and sunny places. Seeds only, packet 25c; 5\$1.

Collection of any Annual Vines (except Moon Vine) your selection, not labelled. 8\$1.; 50\$5.

Collection of 10 varieties Annual Vines, our selection, not labelled, 10\$1.; 25\$2.

CLASSIFICATION INDEX

ALL ARTICLES in this catalogue are alphabetically arranged under their respective classification, as follows:
